Learn from brilliant researchers, full-time scholars, and award-winning educators. Of our more than 500 professors, approximately 88 percent of the full-time faculty hold doctoral or highest terminal degrees.

Fantastic facilities in a beautiful campus. The 262,000 square-foot Marano Campus Center serves as the hub of campus life while following the LEED gold environmental building standards. Oswego was among a select group recognized by top national college review guides, such as Princeton Review, Best Colleges of Distinction, and Colleges of Distinction. Oswego's newly completed $118 million Shineman Center for Science, Engineering, and Innovation is among the world’s most advanced educational laboratories.

There's always something to do. Activities range from student productions of plays to campus tours, from athletic events to the many touring musical and comedy acts. You'll find your interests and develop skills as you enjoy your time here.

Excel in our Honors Program: Go beyond the traditional classroom. Gain real-world experience while networking with professionals in your chosen field. Students enrolled in the Honors Program can choose to participate in a much more diverse environment. The program enrolls about 85 new students annually, offering you a small-school experience surrounded by the many resources of a top-ranked public research university.

Explore internship and Co-op opportunities – some of the richest. Graduate and undergraduate programs in 130 areas of study, including B.A. in Accounting, B.S. in Business Administration, and B.S./M.B.A. ‘11, prepare students for careers in business. Most, if not all, of the program’s course work is done in a cooperative learning environment. The average starting salary for graduates is over $60,000.

Hear noted speakers. Ride a bike. Cruise around the world. Attend a concert by fellow students or one of the world’s first-class ensembles. Feel the excitement of international travel. Experience the exotic with our Honors Global Laboratory Program. Oswego is a leader in study-abroad programs. Choose from over 80 one week, summer and academic semester programs that offer courses in virtually every academic discipline. Oswego students have traveled sites to the exotic. Some have traveled on seven continents, ranging from well-known sites to the exotic.
