

MESSAGE TO NEW TRANSFERS (2008 or after)

In our new Biological Sciences Programs, we eliminated College Biology I (Bio 112) and initiated a Biology 110 (1 semester hr, taught in the Fall). We also eliminated College Biology II (Bio 213) and initiated Biology 120 (4 semester hrs, taught in the Spring).

Students transferring College Biology I (the equivalent of Biology 112, with focus on the diversity of living organisms and ecology) will be given 4 credits in the major's free electives in our new Biological Sciences Programs.

Students transferring College Biology II (the equivalent of Biology 213, with focus on cellular and molecular contents) will be counted for them as Biology 120 in our new Biological Sciences Programs.

Also please review changes in cognate courses (Chemistry, Math, and Physics). Please refer to:
<http://www.oswego.edu/academics/undergraduate/requirements/biology.html>

For other issues related to transfers please refer to the last page of Biology or Zoology advisement sheets for students entering Fall 2007 and after:
