What do MACC AmeriCorps*VISTA members do?
The MACC AmeriCorps*VISTA program was created to pursue the potential for institutions of higher education to more responsibly address the local needs of low-income communities and be responsible mechanisms for community change. MACC AmeriCorps*VISTA members are tools for this change.

Through unique campus and community-based placements, AmeriCorps*VISTA members are focused on impactful campus-community partnerships that strengthen the capacity of local organizations to fight poverty in low-income communities by leveraging the resources of higher education institutions.

Examples of what our VISTAs do during their year of service are:
• bridge the gap between campuses and communities
• break down barriers to access and success in higher education
• prepare students to serve more effectively in communities
• connect community-based organizations with campus resources
• engage with a dynamic network of peers all year
• participate in significant training and professional development opportunities

Massachusetts Campus Compact (MACC) is a nonprofit coalition of college and university presidents committed to strengthening communities through campus-community collaboration and education for informed and active citizenship. MACC mobilizes the diverse human, financial, and material resources of higher education to make a real difference in communities throughout Massachusetts.
