Cynthia Clabough presented information regarding the impacts on Art caused by the Hewitt Quad projects.

The committee understands that portions of SCMA were not analyzed in the program study focused on Tyler Hall, which has created some confusion and misunderstandings on how portions of SCMA will move forward.

Cynthia stated that a previous proposal to Campus Concept regarding CCIT had suggested moving Graphic Design and Communication Studies into Hewitt Hall. This scenario fits well with the concept of using Tyler and Hewitt Halls to form a complex for housing all of the programs in SCMA.

The next meeting will be on Monday, 7 November 2011.
