

## **Mission**

### **Penfield Library: Where Ideas, Learning and Innovation Connect**

We are active partners in the teaching and learning process, connecting members of the SUNY Oswego community with meaningful resources, user-centered services and engaging spaces.

## **Principles**

Penfield Library is at the heart of teaching and learning at SUNY Oswego.

As College leaders in information technology and information literacy, we connect learners with

- resources that are both selected and organized to be easily discovered and meaningfully incorporated into the learning process.
- assistance, guidance and instruction in the use of information sources.
- online and physical spaces where they can pursue learning.
