

GREEN Opportunities!!!

The Syracuse Center of Excellence (SyracuseCoE) Internship Program provides support for qualified college students hosted by Central Upstate New York companies working in the fields of indoor air quality or water resources, including high performance/green building design. Our goal is to increase post-graduation student retention in the Central Upstate region by establishing valuable relationships between college students and Central Upstate companies doing work in the environmental field.

Sustainability at home is a toolkit that helps homeowners understand how to apply sustainable development concepts to everyday household decisions. The guide covers an explanation of sustainability; root causes of un-sustainability; questions to ask while making household decisions; concrete and simple suggestions for every room in your house; renovations; resources for further information and idea and more. Originally designed for Alberta, this guide will be useful for new and experienced homeowners alike.

The Donella Meadows Leadership Fellows Program honors and boosts the effectiveness of people whose approach to sustainability displays analytic clarity, systemic change and attention to spirit, values, and meaning. Eighteen to twenty participants convene for a series of four workshops, with on-going homework and personal coaching between sessions.
