

CHANGE OF GRADE FORM

Please check the appropriate box or boxes. This will save time due to the fact that you will not have to give an explanation and I will not have to hear one.

I would like to have my grade changed because:

- My grade point average is already too low and I will have to leave the college. I am on probation this semester.
- I am a graduating senior (or would have been if I had passed the course.)
- I am in an athletic program/ROTC and they will dismiss me unless my average is satisfactory.
- I am a foreign student supported by my government. Unless I get an A or a B in your course, I will be sent home where I will either be disgraced or shot by my political opponents, who are now in power.
- I have a job for the summer and cannot take the easier summer version of this course.
- I came to class very often and feel that this should compensate for my not having studied and learned much.
- I did not understand that a low grade in one or more tests was a warning that I might not pass this course.
- My professor was very unsympathetic when I argued for a better grade and gave reasons not related to my work in this course.
- I should have attended a university where good grades are given out more readily.
- I am not very good at elementary algebra and need more time than I was given to work out the answers to test questions.
- I do not understand the course contents and it is unfair to expect me to answer questions about it.
- My parent(s) will be very upset if the grade is not changed.
- My grandmother is very old and cannot stand the shock of my failure.
- You and I are both mature individuals and we both know that what matters is not the grade in the course but the knowledge that students carry with them for effective use in their future lives. Therefore, since grades do not matter, you might as well give me a good one.
