edTPA stems from a twenty-five-year history of developing performance-based assessments of teaching quality and effectiveness. The Teacher Performance Assessment Consortium (Stanford and AACTE) acknowledges the National Board for Professional Teaching Standards, the Interstate Teacher Assessment and Support Consortium, and the Performance Assessment for California Teachers for their pioneering work using discipline-specific portfolio assessments to evaluate teaching quality. This version of the handbook has been developed with thoughtful input from over six hundred teachers and teacher educators representing various national design teams, national subject matter organizations (AAHPERD, ACEI, ACTFL, AMLE, CEC, IRA, NAEYC, NAGC, NCSS, NCTE, NCTM, NSTA), and content validation reviewers. All contributions are recognized and appreciated.

Introduction to edTPA Secondary History/Social Studies

Purpose

edTPA is a nationally available performance assessment of readiness to teach for novices. The assessment is designed with a focus on student learning and principles from research and theory. Successful teachers

- develop knowledge of subject matter, content standards, and subject-specific pedagogy
- develop and apply knowledge of varied students’ needs
- consider research and theory about how students learn
- reflect on and analyze evidence of the effects of instruction on student learning

As a performance-based assessment, edTPA is designed to engage candidates in demonstrating their understanding of teaching and student learning in authentic ways.

Summary of Tasks

In this assessment, you will describe, analyze, and evaluate the teaching of a series of 3–5 history/social studies lessons (or, if teaching history/social studies within a large time block, about 3–5 hours of connected instruction) referred to as a learning segment. Consistent with the Common Core State Standards,¹ the National Curriculum Standards for Social Studies (NCSS), and additional state and national content standards² as appropriate, a learning segment prepared for this assessment should reflect a balanced approach to history/social studies. This includes learning tasks where students have opportunities to develop and apply the knowledge, intellectual processes, and practices required to become active and productive citizens.

You will complete three tasks for edTPA:

1. Planning for Instruction and Assessment
2. Instructing and Engaging Students in Learning
3. Assessing Student Learning

¹ The Common Core State Standards for English Language Arts & Literacy in History/Social Studies, Science, and Technical Subjects (June 2010) can be found at http://www.corestandards.org/the-standards/english-language-arts-standards/. Note that Minnesota and Virginia have not adopted the Common Core State Standards.

² For example, the National Standards for History (National Center for History in the Schools, 1996), the Voluntary National Content Standards in Economics (Council for Economic Education, 2010), Geography for Life: National Geography Standards (Geography Education National Implementation Project, 2012), and the National Standards for Civics and Government (Center for Civic Education, 1994).
The Cycle of Effective Teaching and edTPA Tasks

The three edTPA tasks represent a cycle of effective teaching. The planning task documents your intended teaching, the instruction task documents your enacted teaching, and the assessment task documents the impact of your teaching on student learning.

Evidence of Teaching Practice: Artifacts and Commentaries

To complete the assessment, you will submit artifacts and commentaries as evidence of how you planned and implemented instruction to deepen student learning in history/social studies.

- **Artifacts** represent authentic work completed by you and your students. These include lesson plans, copies of instructional and assessment materials, video clips of your teaching, and student work samples.

- **Commentaries** are your opportunity to describe your artifacts, explain the rationale behind their choice, and analyze what you have learned about your teaching practice and your students’ learning. Note that although your writing ability will not be scored directly, commentaries must be clearly written and well focused.
When preparing your artifacts and commentaries, refer to the rubrics frequently to guide your thinking, planning, and writing. Refer to the Secondary History/Social Studies Evidence Chart for information about how your evidence should be formatted for electronic submission.

**Evaluation Criteria**

The evidence you submit will be judged on five components of teaching practice:

1. Planning
2. Instruction
3. Assessment
4. Analyzing Teaching
5. Academic Language

You will provide evidence for the planning, instruction, and assessment components within the corresponding tasks. You will provide evidence for the analyzing teaching component across all three tasks. You will provide evidence for the academic language component in planning, as well as in the instruction AND/OR assessment task.

The rubrics used to score your performance are included in this handbook and follow the directions for each task. The descriptors in the five-level rubrics address a wide range of performance representing the knowledge and skills of a novice not ready to teach (Level 1) to the advanced practices of a highly accomplished beginner (Level 5).

**Structure of the Handbook**

The instructions on the following pages guide you in putting together the artifacts and commentaries required within the three tasks of edTPA. Within each task, instructions are organized into four sections:

1. **What to Think About**
2. **What Do I Need to Do?**
3. **What Do I Need to Write?**
4. **How Will the Evidence of My Teaching Practice Be Assessed?**
Additional requirements and resources are available to you in this handbook:\(^3\)

- **Professional Responsibilities**: guidelines for the development of your evidence
- **Context for Learning Information**: prompts used to collect information about your school/classroom context
- **Evidence Chart**: requirements for electronic evidence submission, including supported file types, number of files, response length, and other important evidence specifications
- **Glossary**: definitions of key terms; roll your cursor over each glossary term marked with a dotted underline or refer to the Secondary History/Social Studies Glossary.

Review all instructions carefully before beginning to teach the learning segment to ensure that you are well prepared for all tasks. If you are submitting artifacts and commentaries to Pearson for official scoring, refer to the Pearson website, www.edTPA.com, for complete and current information before beginning your work.

\(^3\) Your preparation program will have additional resources, including the Making Good Choices document, that provide guidance as you develop your evidence.

Task 1: Planning for Instruction and Assessment

What to Think About

In Task 1: Planning for Instruction and Assessment, you will describe your plans for the learning segment and explain how your instruction is appropriate for the students and the content you are teaching:

- What do your students know, what can they do, and what are they learning to do?
- What do you want your students to learn? What are the important understandings and core concepts you want students to develop within the learning segment?
- What instructional strategies, learning tasks, and assessments will you design to support student learning and language use?
- How is the teaching you propose informed by your knowledge of students?

Task 1 prepares you to demonstrate and analyze the effectiveness of your teaching of the planned learning segment.

What Do I Need to Do?

- **Select a class.** If you teach more than one class, select one focus class for this assessment.
- **Provide context information.** The Context for Learning Information is provided at the end of this handbook (no more than 3 pages, including prompts).
- **Identify a learning segment to plan, teach, and analyze.** Review the curriculum with your cooperating teacher and select a learning segment of 3–5 lessons (or, if teaching history/social studies within a large time block, about 3–5 hours of connected instruction).
- **Identify a central focus.** Identify the central focus along with the content standards and objectives you will address in the learning segment. The central focus should support students in learning and using facts and concepts, and interpretation and analysis skills to build arguments about historical events, a topic/theme, or social studies phenomenon.
- **Analyze language demands.** Select a key language function, a learning task, and additional language demands required by the task.
- **Write a lesson plan** for each lesson in the learning segment. Your lesson plans should be detailed enough so that a substitute or other teacher could understand them well enough to use them. If your teacher preparation program requires you to use a specific lesson plan format for this assessment, be sure to include the information described below.
Your lesson plans should include the following information:

- State-adopted student academic content standards and/or Common Core State Standards that are the target of student learning (Please list the number and text of the standard. If only a portion of a standard is being addressed, then only list the relevant part[s]).

- Learning objectives associated with the content standards.

- Informal and formal assessments used to monitor student learning, including type(s) of assessment and what is being assessed.

- Instructional strategies and learning tasks (including what you and the students will be doing) that support diverse student needs.

- Instructional resources and materials used to engage students in learning.

Respond to prompts listed in the Planning Commentary section below prior to teaching the learning segment.

Submit your original lesson plans. If you make changes while teaching the learning segment, you will have opportunities to reflect on changes in the Instruction and Assessment Commentaries.

Select and submit key instructional materials needed to understand what you and the students will be doing (no more than 5 additional pages per lesson plan). The instructional materials might include such items as class handouts, assignments, slides, and interactive whiteboard images.

Submit copies of all written assessments. (Do not submit student work samples, but the blank instruments as given to students.)

See Task 1: Artifacts and Commentary Specifications for instructions on electronic evidence submission. This evidence chart identifies supported file types, number of files, response length, and other important evidence specifications.

What Do I Need to Write?

In Task 1: Planning for Instruction and Assessment, you will write:

- lesson plans
- a description of your context for learning
- commentary explaining your plans
Planning Commentary
Respond to the prompts below (no more than 9 single-spaced pages, including prompts).

1. Central Focus
   a. Describe the central focus and purpose for the content you will teach in this learning segment.
   b. Given the central focus, describe how the standards and learning objectives within your learning segment address:
      ▪ Facts and concepts
      ▪ Interpretation and analysis skills
      ▪ Building and supporting arguments
   c. Explain how your plans build on each other to help students make connections between facts, concepts, and interpretations or analyses to build and support arguments about historical events, a topic/theme, or social studies phenomenon.

2. Knowledge of Students to Inform Teaching
   For each of the prompts below (2a–b), describe what you know about your students with respect to the central focus of the learning segment.
   Consider the variety of learners in your class who may require different strategies/support (e.g., students with IEPs, English language learners, struggling readers, underperforming students or those with gaps in academic knowledge, and/or gifted students).

   a. Prior academic learning and prerequisite skills related to the central focus—What do students know, what can they do, and what are they learning to do?
   b. Personal/cultural/community assets related to the central focus—What do you know about your students’ everyday experiences, cultural backgrounds and practices, and interests?

3. Supporting Students’ History/Social Studies Learning
   Respond to prompts below (3a–c). As needed, refer to the instructional materials and lesson plans you have included to support your explanations. Use principles from research and/or theory to support your explanations, where appropriate.

   a. Explain how your understanding of your students’ prior academic learning and personal/cultural/community assets (from prompts 2a–b above) guided your choice or adaptation of learning tasks and materials.
   b. Describe key misconceptions within your content focus and how you will address them.
c. Describe and justify why your instructional strategies and planned supports are appropriate for the whole class and students with similar or specific learning needs.

Consider students with IEPs, English language learners, struggling readers, underperforming students or those with gaps in academic knowledge, and/or gifted students.

4. Supporting History/Social Studies Development Through Language

a. **Language Demand: Language Function.** Identify one language function essential for students to learn the history/social studies content within your central focus. Listed below are some sample language functions. You may choose one of these or another more appropriate for your learning segment.

<table>
<thead>
<tr>
<th>Analyze</th>
<th>Compare/contrast</th>
<th>Construct</th>
<th>Describe</th>
<th>Evaluate</th>
</tr>
</thead>
<tbody>
<tr>
<td>Examine</td>
<td>Identify</td>
<td>Interpret</td>
<td>Justify</td>
<td>Locate</td>
</tr>
</tbody>
</table>

b. Identify a key learning task from your plans that provides students with opportunities to practice using the language function. In which lesson does the learning task occur? (Give lesson/day number.)

c. **Additional Language Demands.** Given the language function and task identified above, describe the following associated language demands (written or oral) students need to understand and/or use.

- **Vocabulary** and key phrases
- **Plus** at least one of the following:
  - Syntax
  - Discourse

Consider the range of students’ understandings of the language function and other demands—what do students already know, what are they struggling with, and/or what is new to them?

d. **Language Supports.** Refer to your lesson plans and instructional materials as needed in your response to the prompt.

- Describe the instructional supports (during and/or prior to the learning task) that help students understand and successfully use the language function and additional language identified in prompts 4a–c.

5. Monitoring Student Learning

Refer to the assessments you will submit as part of the materials for Task 1.

a. Describe how the planned formal and informal assessments provide direct evidence of how students learn and use facts, concepts, and interpretations or analyses to build arguments about historical events or social studies phenomenon throughout the learning segment.
b. Explain how the design or adaptation of your planned assessments allows students with specific needs to demonstrate their learning.

Consider all students, including students with IEPs, English language learners, struggling readers, underperforming students or those with gaps in academic knowledge, and/or gifted students.

How Will the Evidence of My Teaching Practice Be Assessed?

When preparing your artifacts and commentaries, refer to the rubrics frequently to guide your thinking, planning, and writing. For Task 1: Planning for Instruction and Assessment, your evidence will be assessed with rubrics 1–5, which appear in the following pages.
### Planning Rubrics

#### Rubric 1: Planning for History/Social Studies Understandings

**How do the candidate’s plans build students’ understandings of facts, concepts, and interpretations or analyses to build and support arguments about historical events, a topic/theme or social studies phenomenon?**

<table>
<thead>
<tr>
<th>Level 1⁴</th>
<th>Level 2</th>
<th>Level 3</th>
<th>Level 4</th>
<th>Level 5</th>

<td>Candidate’s plans focus solely on facts or a singular interpretation of historical events, a topic/theme, or social studies phenomenon with little to no connections to facts, concepts, interpretations or analyses and building arguments.</td>
<td>Plans for instruction support student learning of facts with vague connections to concepts, interpretations or analyses and building arguments.</td>
<td>Plans for instruction build on each other to support student learning of facts with clear connections to concepts, interpretations or analyses and building arguments.</td>
<td>Plans for instruction build on each other to support student learning of facts with clear and consistent connections to concepts, interpretations or analyses and building and supporting arguments.</td>
<td>Level 4 plus: Candidate explains how they will lead students to build explicit connections between interpretations or analyses and supporting arguments as well as the central focus of the learning segment.</td>
</tr>
</tbody>
</table>

- There are significant content inaccuracies that will lead to student misunderstandings.

**OR**

- Standards, objectives, learning tasks, and materials are not aligned with each other.

⁴ Text representing key differences between adjacent score levels is shown in bold. Evidence that does not meet Level 1 criteria is scored at Level 1.
### Rubric 2: Planning to Support Varied Student Learning Needs

How does the candidate use knowledge of his/her students to target support for students to develop understandings of facts, concepts, and interpretations or analyses to build arguments about historical events, a topic/theme, or social studies phenomenon?

| Candidate’s justification of learning tasks is either missing OR represents a deficit view of students and their backgrounds. | Candidate justifies learning tasks with **limited attention** to students’ prior academic learning OR personal/cultural/community assets. | Candidate **justifies why learning tasks (or their adaptations) are appropriate using**  
- examples of students’ prior academic learning  
- examples of personal/cultural/community assets  
**OR**  
Candidate makes superficial connections to research and/or theory. | Candidate justifies why learning tasks (or their adaptations) are appropriate using

<td>Candidate identifies vocabulary as the major language demand associated with the language function. Attention to additional language demands is superficial. Language supports primarily address vocabulary definitions.</td>
<td>Candidate identifies vocabulary and additional language demand(s) associated with the language function. Plans include general support for use of vocabulary as well as additional language demand(s).</td>
<td>Candidate identifies vocabulary and additional language demand(s) associated with the language function. Plans include targeted support for use of vocabulary as well as additional language demand(s).</td>
<td>Level 4 plus: Instructional supports are designed to meet the needs of students with different levels of language learning.</td>

Task 2: Instructing and Engaging Students in Learning

What to Think About

In Task 2: Instructing and Engaging Students in Learning, you will demonstrate how you support and engage students in learning:

- What kind of learning environment do you want to develop in order to establish respect and rapport, and to support students’ engagement in learning?
- What kinds of learning tasks actively engage students in the central focus of the learning segment?
- How will you elicit and build on student responses in ways to develop and deepen content understanding?
- In what ways will you connect new content to your students’ prior academic learning and personal, cultural, or community assets during your instruction?
- How will you use evidence from your instruction to examine and change your teaching practices to more effectively meet a variety of student learning needs?

What Do I Need to Do?

- **Obtain required permission for videorecording.** Before you record your video, ensure that you have the appropriate permission from the parents/guardians of your students and from adults who appear in the video. Adjust the camera angle to exclude individuals for whom you do not have permission to film.

- **Examine your plans for the learning segment** and identify challenging learning tasks in which you and students are actively engaged.

- **Identify lessons to videorecord.**
  - Provide **2 video clips (each no more than 10 minutes in length)** that demonstrate how you develop students’ abilities to evaluate sources, form interpretations or analyses, and build and defend arguments.
    - The first clip should illustrate what you did to help students critically evaluate accounts or interpretations of historical events or social studies phenomenon and build and defend arguments.
    - The second clip should focus on what you did to support students as they formed interpretations or analyses and used evidence to build and support arguments about historical events or social studies phenomenon.
- Determine whether you will feature the whole class or a targeted group of students within the class.
- (Optional) Provide evidence of students’ language use. In Task 3, you will provide evidence of students’ language use with your video clips from Task 2 AND/OR through the student work samples analyzed in Task 3.

- **Videorecord your classroom teaching.** Tips for videorecording your class are available from your teacher preparation program.

- **Select 2 video clips to submit** and verify that each meets the following requirements:
  - A video clip must be continuous and unedited, with no interruption in events.
  - Check the video and sound quality to ensure that you and your students can be *seen* and *heard* on the video clips you submit.
  - Do not include the name of the state, school, or district in your video. Use first names only for all individuals appearing in the video.

- **Respond to prompts** listed in the Instruction Commentary section below after viewing the video clips.

- **Determine if additional information is needed to understand what you and the students are doing in the video clips.** For example, if there are graphics, texts, or images that are not clearly visible in the video, or comments that are not clearly heard, insert digital copies or transcriptions at the end of the Instruction Commentary (no more than 2 pages).

See [Task 2: Artifacts and Commentary Specifications](#) for instructions on electronic evidence submission. This evidence chart identifies supported file types, number of files, response length, and other important evidence specifications.

---

**What Do I Need to Write?**

**Instruction Commentary**

Write the Instruction Commentary (no more than 6 single-spaced pages, including prompts) by providing your response to each of the prompts below.

1. Which lesson or lessons are shown in the clips? Identify the lesson(s) by lesson plan number.

2. **Promoting a Positive Learning Environment**

   Identify scenes in the video clip(s) where you provided a positive learning environment.

   - How did you demonstrate mutual respect for, rapport with, and responsiveness to students with varied needs and backgrounds, and challenge students to engage in learning?
3. Engaging Students in Learning
   Refer to examples from the clip(s) in your explanations.
   a. Explain how your instruction engaged students in
      ▪ developing strategies or skills by critically evaluating accounts or interpretations of historical events or social studies phenomenon
      ▪ building and supporting their arguments
   b. Describe how your instruction linked students’ prior academic learning and personal, cultural, and community assets with new learning.

4. Deepening Student Learning during Instruction
   Refer to examples from the clip(s) in your explanations.
   a. Explain how you elicited student responses that supported your students’ ability to form interpretations or analyses and build and support arguments.
   b. Describe and cite examples from the clip(s) of how you support students in using evidence to help your students learn to build and support arguments about historical events, a topic/theme, or social studies phenomenon.

5. Analyzing Teaching
   Refer to examples from the clip(s) in your explanations.
   a. How did your instruction support learning for the whole class and students who need greater support or challenge?
      Consider the variety of learners in your class who may require different strategies/support (e.g., students with IEPs, English language learners, struggling readers, underperforming students or those with gaps in academic knowledge, and/or gifted students).
   b. What changes would you make to your instruction to better support student learning of the central focus (e.g., missed opportunities)?
   c. Why do you think these changes would improve student learning? Support your explanation with evidence of student learning and principles from theory and/or research as appropriate.

How Will the Evidence of My Teaching Practice Be Assessed?

When preparing your artifacts and commentaries, refer to the rubrics frequently to guide your thinking, planning, and writing. For Task 2: Instructing and Engaging Students in Learning, your evidence will be assessed using rubrics 6–10, which appear on the following pages.

Task 3: Assessing Student Learning

What to Think About

In Task 3: Assessing Student Learning, you will analyze student learning and their language use:

- How will you gather evidence and make sense of what students have learned?
- How will you provide meaningful feedback to your students?
- How will you use evidence of what students know and are able to do to plan next steps in instruction?
- How will you identify evidence and explain students’ use of language that demonstrates the development of content understanding?

What Do I Need to Do?

- **Determine which assessment from your learning segment you will use** to evaluate your students’ developing knowledge and skills. It should be an assessment to be completed by the entire class featured in the learning segment. The assessment should reflect the work of individuals, not groups, but may be individual work from a group task. The assessment should provide opportunities for students to demonstrate their learning and use of
  - fact and concepts
  - interpretation and analysis skills
  - building and supporting arguments
- **Define and submit the evaluation criteria** you will use to analyze student learning related to the history/social studies understandings described above.
- **Collect and analyze student work** to identify quantitative and qualitative patterns of learning within and across learners in the class.
- **Select 3 work samples to illustrate your analysis** that represent the patterns of learning (i.e., what individuals or groups generally understood and what a number of students were still struggling to understand). These students will be your focus students for this task. At least one of the students must have specific learning needs, for example, a student with an IEP (Individualized Education Program), an English language learner, a struggling reader, an underperforming student or a student with gaps in academic knowledge, and/or a gifted student needing greater support or challenge.
- **Document the feedback** you gave to each of the 3 focus students either on the work sample itself, as an audio clip, or as a video clip.
- **Respond to prompts** listed in the Assessment Commentary section below after analyzing student work from the selected assessment.
Include and submit the chosen assessment, including the directions/prompts for the assessment. Attach it (no more than 2 pages) to the end of the Assessment Commentary.

Provide evidence of students' understanding and use of the targeted academic language function. You may choose evidence from video clips submitted in Task 2 AND/OR student work samples submitted in Task 3.

See Task 3: Artifacts and Commentary Specifications for instructions on electronic evidence submission. This evidence chart identifies supported file types, number of files, response length, and other important evidence specifications.

What Do I Need to Write?

Assessment Commentary

Write the Assessment Commentary (no more than 8 single-spaced pages, including prompts) by providing your response to each of the prompts below.

1. Analyzing Student Learning
   a. Identify the specific standards/objectives from the lesson plans measured by the assessment chosen for analysis.
   b. Provide the evaluation criteria you are using to analyze the student learning.
   c. Provide a graphic (table or chart) or narrative summary of student learning for your whole class. Be sure to summarize student learning for all evaluation criteria described above.
   d. Use evidence found in the 3 student work samples and the whole class summary to analyze the patterns of learning for the whole class and differences for groups or individual learners relative to understanding and using
      - facts and concepts
      - interpretation and analysis skills
      - building and supporting arguments

   Consider what students understand and do well, and where do they continue to struggle (e.g., common errors, confusions, need for greater challenge).

2. Feedback to Guide Further Learning
   Refer to specific evidence of submitted feedback to support your explanations.
   a. In what form did you submit your evidence of feedback for the 3 focus students?
      - Written directly on work samples or in a separate document;
      - In audio files; or
      - In video clip(s) from the instruction task (provide a time-stamp reference) or in a separate video clip?
b. Explain how feedback provided to the 3 focus students addresses their individual strengths and needs relative to the standards/objectives measured.

c. How will you support students to apply the feedback to guide improvement, either within the learning segment or at a later time?

3. Evidence of Language Understanding and Use

You may provide evidence of language use with your video clips from Task 2 AND/OR through the student work samples analyzed in Task 3.

Refer to examples from the clip(s) (with time stamps) and/or student work samples as evidence.

- Explain the extent to which your students were able to use language (selected function, vocabulary, and additional identified demands) to develop content understandings?

4. Using Assessment to Inform Instruction

a. Based on your analysis of student learning presented in prompts 1c–d, describe next steps for instruction:

   - for the whole class
   - for the 3 focus students and other individuals/groups with specific needs

Consider the variety of learners in your class who may require different strategies/support (e.g., students with IEPs, English language learners, struggling readers, underperforming students or those with gaps in academic knowledge, and/or gifted students).

b. Explain how these next steps follow from your analysis of the student learning. Support your explanation with principles from research and/or theory.

How Will the Evidence of My Teaching Practice Be Assessed?

When preparing your artifacts and commentaries, refer to the rubrics frequently to guide your thinking, planning, and writing. For Task 3: Assessing Student Learning, your evidence will be assessed using Rubrics 11–15, which appear on the following pages.

Professional Responsibilities

Refer to the following table for an overview of your professional responsibilities in developing your evidence for edTPA. If you are submitting artifacts and commentaries to Pearson for official scoring, refer to the Pearson website, [www.edTPA.com](http://www.edTPA.com), for complete and current information before beginning your work. Whether or not you are submitting to Pearson, you should fulfill the professional responsibilities described below.

<table>
<thead>
<tr>
<th>Responsibility</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Protect confidentiality</strong></td>
<td>To protect confidentiality, please remove your name and use pseudonyms or general references (e.g., “the district”) for your state, school, district, and cooperating teacher. Mask or remove all names on any typed or written material (e.g., commentaries, lesson plans, student work samples) that could identify individuals or institutions. During video recording, use students’ first names only.</td>
</tr>
<tr>
<td><strong>Acquire permissions</strong></td>
<td>Before you record your classroom instruction, ensure that you have the appropriate permission from the parents/guardians of your students and from adults who appear in the video recording. Your program will provide you with procedures and necessary forms to obtain these permissions, according to agreements with the school or district in which you are student teaching or completing your internship. If your program does not provide the necessary forms, you may refer to the sample forms found on the Pearson website. The release forms are not to be submitted with your materials, but you should follow your campus policy for retaining them.</td>
</tr>
<tr>
<td><strong>Cite sources</strong></td>
<td>Provide citations for the source of all materials that you did not create (e.g., published texts, websites, and material from other educators). List all citations by lesson number at the end of the Planning Commentary.</td>
</tr>
<tr>
<td><strong>Align instruction with state standards</strong></td>
<td>As part of the assessment, you will document the alignment of your lesson plans with state-adopted academic content standards or Common Core State Standards that are the target of student learning. Refer to the education agency website for your state to obtain copies of relevant standards for this assessment.</td>
</tr>
</tbody>
</table>
| **Follow the guidelines for candidate support at www.edTPA.com** | Follow the guidelines for candidate support found at [www.edTPA.com](http://www.edTPA.com) as you develop your evidence for edTPA. Although you may seek and receive appropriate support from your university supervisors, cooperating/master teachers, university instructors, or peers during this process, the ultimate responsibility for completing this assessment lies with you. Therefore, when you submit your completed work, you must be able to confirm your adherence with certain statements, such as the following:  
  - I have primary responsibility for teaching the students/class during the learning segment profiled in this assessment.
  - I have not previously taught this learning segment to the student/class.
  - The video clip(s) submitted show me teaching the students/class profiled in the evidence submitted.
  - The student work included in the documentation is that of my students, completed during the learning segment documented in this assessment.
  - I am sole author of the commentaries and other written responses to prompts and other requests for information in this assessment.
  - Appropriate citations have been made for all materials in the assessment whose sources are from published text, the Internet, or other educators. |
Secondary History/Social Studies Context for Learning Information

Use the Context for Learning Information to supply information about your school/classroom context.

About the School Where You Are Teaching

1. In what type of school do you teach?
   - Middle school:
   - High school:
   - Other (please describe):
   - Urban:
   - Suburban:
   - Rural:

2. List any special features of your school or classroom setting (e.g., charter, co-teaching, themed magnet, remedial course, honors course) that will affect your teaching in this learning segment.

3. Describe any district, school, or cooperating teacher requirements or expectations that might affect your planning or delivery of instruction, such as required curricula, pacing plan, use of specific instructional strategies, or standardized tests.

About the Class Featured in This Assessment

1. What is the name of this course?

Secondary History/Social Studies Glossary

Source citations for glossary entries are provided as footnotes in this section.

academic language: Oral and written language used for academic purposes. Academic language is the means by which students develop and express content understandings. Academic language represents the language of the discipline that students need to learn and use to participate and engage in meaningful ways in the content area. There are language demands that teachers need to consider as they plan to support student learning of content. These language demands include vocabulary, language functions, syntax, and discourse.

- discourse: Discourse includes the structures of written and oral language, as well as how members of the discipline talk, write, and participate in knowledge construction. Discipline specific discourse has distinctive features or ways of structuring oral or written language (text structures) that provide useful ways for the content to be communicated.\(^9\) In history/social studies, language features include expository, narrative, journalistic, maps, and other graphic print materials; presentations of data in text, charts, and graphs; and video and live presentations. Discourse structures can be at the sentence, paragraph, or symbolic level. If the function is to develop a document-based argument, then appropriate language features could include written essays with specified formats and pattern sentences like "The two main causes of ________ were ____________ and ____________. For example, the (author of) (document) stated that ____________." (citation).

- language demands:\(^{10}\) Specific ways that academic language (vocabulary, functions, discourse, syntax) is used by students to participate in learning tasks through reading, writing, listening, and/or speaking to demonstrate their disciplinary understanding.

- language functions: The content and language focus of the learning task represented by the active verbs within the learning outcomes. Common language functions in history/social studies include interpreting maps, graphs, and data tables; evaluating and interpreting an author/presenter/historian's purpose and message; examining evidence an author/presenter/historian uses to support claims; analyzing arguments in favor of a perspective; writing/presenting persuasive arguments; analyzing and/or describing causes of historical, economic, geographic, and political events; and defending argument with evidence.

- syntax: The set of conventions for organizing symbols, words, and phrases together into structures (e.g., sentences, graphs, tables).\(^{11}\)

- **vocabulary**: Includes words and phrases that are used within disciplines, including: (1) words and phrases with subject-specific meanings that differ from meanings used in everyday life (e.g., table); (2) general academic vocabulary used across disciplines (e.g., compare, analyze, evaluate); and (3) subject-specific words defined for use in the discipline.12

- **artifacts**: Authentic work completed by you and your students, including lesson plans, copies of instructional and assessment materials, video clips of your teaching, and student work samples. Artifacts are submitted as part of your evidence.

- **assessment (formal and informal)**: “[R]efer[s] to all those activities undertaken by teachers and by their students . . . that provide information to be used as feedback to modify the teaching and learning activities.”13 Assessments provide evidence of students’ prior knowledge, thinking, or learning in order to evaluate what students understand and how they are thinking. Informal assessments may include, for example, student questions and responses during instruction and teacher observations of students as they work. Formal assessments may include, for example, quizzes, homework assignments, journals, and projects.

- **assets (knowledge of students)**:
  - **personal**: Refers to specific background information that students bring to the learning environment. Students may bring interests, knowledge, everyday experiences, and family backgrounds, and so on, that a teacher can draw upon to support learning.
  - **cultural**: Refers to the cultural backgrounds and practices that students bring to the learning environment, such as traditions, languages, world views, literature, art, and so on, that a teacher can draw upon to support learning.
  - **community**: Refers to common backgrounds and experiences that students bring from the community where they live, such as resources, local landmarks, community events and practices, and so on, that a teacher can draw upon to support learning.

- **central focus**: A description of the important understandings and core concepts that you want students to develop within the learning segment. The central focus should go beyond a list of facts and skills, align with content standards and learning objectives, and address the subject-specific components in the learning segment. For example, a central focus for a secondary history/social studies learning segment might be “the effects of British colonial rule in India” or “the role of political parties in the electoral process.” The learning segment would focus on facts, concepts, analyses, and interpretations of sources to build and support arguments about historical events, a topic/theme, or social studies phenomenon.

- **commentary**: Submitted as part of each task and, along with artifacts, make up your evidence. The commentaries should be written to explain the rationale behind your teaching decisions and to analyze and reflect on what you have learned about your teaching practice and your students’ learning.

---

**electronic submission:** Your evidence is submitted electronically through the electronic portfolio management system used by your teacher preparation program. Your submission must conform to the specifications listed in the Secondary History/Social Studies Evidence Chart.

**engaging students in learning:** Using instructional and motivational strategies that promote students’ active involvement in learning tasks that increase their knowledge, skills, and abilities related to specific learning objectives. Engagement in learning contrasts with student participation in learning tasks that are not well designed and/or implemented and do not increase student learning.

**evaluation criteria:** Performance indicators or dimensions that are used to assess evidence of student learning. They indicate the qualities by which levels of performance can be differentiated and that anchor judgments about the learner’s degree of success on an assessment. Evaluation criteria can be represented in various ways, such as a rubric, a point system for different levels of performance, or rules for awarding full versus partial credit. Evaluation criteria may examine correctness/accuracy, cognitive complexity, sophistication or elaboration of responses, or quality of explanations.

**evidence:** Consists of artifacts that document how you planned and implemented instruction AND commentaries that explain your plans and what is seen in the video recording(s) or examine what you learned about your teaching practice and your students’ learning. Evidence should demonstrate your ability to design lesson plans with instructional supports that deepen student learning, use knowledge of your students to inform instruction, foster a positive learning environment that promotes student learning, monitor and assess student progress toward learning objectives, and analyze your teaching effectiveness. Your evidence must be submitted electronically using the electronic portfolio management system used by your teacher preparation program.

**learning environment:** The designed physical and emotional context, established and maintained throughout the learning segment to support a positive and productive learning experience for students.

**learning objectives:** Student learning outcomes to be achieved by the end of the lesson or learning segment.

**learning segment:** A set of 3–5 lessons that build one upon another toward a central focus, with a clearly defined beginning and end.

**learning task:** Includes activities, discussions, or other modes of participation that engage students to develop, practice, and apply skills and knowledge related to a specific learning goal. Learning tasks may be scaffolded to connect prior knowledge to new knowledge and often include formative assessment.

**patterns of learning:** Includes both quantitative and qualitative consistencies for different groups of students and individuals across the whole class. Quantitative patterns indicate the number of similar correct responses or errors across or within student assessments. Qualitative patterns include descriptions of understandings, misunderstandings, and partial understandings that underlie the quantitative patterns.
prior academic learning and prerequisite skills: Indicates students’ content knowledge and skills as well as academic experiences developed prior to the learning segment.

rubrics: Subject-specific evaluation criteria used to score your performance on edTPA. These rubrics are included in the handbook following the directions for each task. The descriptors in the five-level rubrics address a wide range of performance representing the knowledge and skills of a novice not ready to teach (Level 1) to the advanced practices of a highly accomplished beginner (Level 5).

social studies phenomenon: Observables occurrence, circumstance, or behavior (e.g., civil war, racism, revolution, civic engagement, rationality, crime, peace, poverty).

variety of learners: Students in your class who may require different strategies or support. These students include but are not limited to students with IEPs, English language learners, struggling readers, underperforming students, or those with gaps in academic knowledge, and/or gifted students.
