

## **3D/SCULPTURE STUDIO HEALTH AND SAFETY POLICY - 207 TYLER HALL COVID-PROTOCOLS**

- 1) **Face Masks:** During all in-person class activities a face mask must be worn at all times, whether we are indoors or outdoors. Your face mask must be covering both your nose and mouth. If you fail to do so you will be asked to leave class and a Student Conduct violation will be assessed. If you need to remove your mask or significantly adjust it please do so outside or in a low traffic area.
- 2) **Physical Distancing:** All persons on campus will maintain at least six feet of distance from other persons unless safety or core function of their work activity requires a shorter distance.
- 3) **Personal Hygiene:** Upon entering the studio, students should use hand sanitizer. Students should wash their hands frequently with soap and water for 20 seconds. Additionally, students should make a practice coughing/sneezing only into their elbows and avoid touching their faces.
- 4) **Studio Usage:** The studio may only be used when there is an instructor, Course Assistant, or Studio Monitor present. The studio may not be occupied by more than 10 people at any one time. All surfaces must be cleaned before and after they are used. Student projects, materials, and tools may not be stored in the studio.
- 5) **Assigned Work Areas:** Each student will be assigned a seat and work area. Please only work within your designated area. Please keep your materials with and on your work area.
- 6) **Cleaning of Shared Surfaces:** At the beginning and end of each class, students will be asked to clean their table, stool, barrier, and work areas. To avoid passing the sanitizer bottle from student to student, students will take turns leading the class in the end-of-class cleanup. The leader will spray paper towels with sanitizer and distribute them to all other students to use. Then the leader will clean their own station. Paper towels and spray sanitizer will be provided.
- 7) **Food and Drink:** Food or drink should not be brought into the studio and eating or drinking is prohibited within the space. If you must eat or drink go outdoors or to a campus space designated for this activity.
- 8) **Daily Covid Screening:** Before entering any campus facility or space self-administer the following screening:
  - Is my temperature greater than or equal to 100 degrees Fahrenheit (37.8 degrees Celsius)?
  - Have I had any known close contact with a person confirmed or suspected to have COVID-19 in the past 14 days?
  - Have I tested positive for COVID-19 through a diagnostic test in the past 14 days?
  - Am I currently experiencing any of the following symptoms (not related to chronic, known conditions or seasonal allergies)?
    - Sore throat?
    - Congestion or runny nose? Nausea or vomiting?
    - Diarrhea?

If you answered "Yes" to ANY of the preceding questions and you live off-campus, STAY off-campus. If you answered "Yes" to ANY of the preceding questions and you live on-campus, STAY in your personal dorm room or campus apartment. Do not enter public facilities or spaces on campus. In either case, notify your instructors.
