

2014-15 COURSE PREREQUISITES SUMMARY

The PTCAS Course Prerequisites Summary is a report of the American Physical Therapy Association (APTA). A total of 179 Doctor of Physical Therapist (DPT) education programs participate in PTCAS during the 2014-15 admissions cycle (as of June 2014). Percentages below reflect the 176 programs with course prerequisite data populated on the [PTCAS Directory](#) as of June 24, 2014.

DPT education programs may change course prerequisites at any time and may have additional requirements, preferences, or policies that are not reflected in this summary or on the PTCAS website. Programs may also allow applicants to substitute courses or choose different prerequisite tracks. Applicants should review the PTCAS Directory for program-specific details and contact programs directly to determine whether a particular course will fulfill a prerequisite.

ANATOMY AND PHYSIOLOGY

DPT programs may require applicants to complete an anatomy or physiology course in a biology, neuroscience, anatomy, or integrated physiology department. Many programs will accept two combined anatomy and physiology (A&P I and A&P II) in lieu of separate anatomy and physiology courses.

- **98%** require at least one course in anatomy, physiology, anatomy & physiology I (A&P I), or anatomy & physiology II (A&P II).
- **2%** do not require a course in anatomy, physiology, anatomy & physiology I (A&P I), or anatomy & physiology II (A&P II).

BIOLOGY

- **86%** require one or more courses in biology or biological science.
- **14%** do not require a course in biology or biological science.

CHEMISTRY

- **98%** require one or more courses in chemistry.
- **2%** do not require a course in chemistry.

PHYSICS

- **100%** require one or more courses in physics.
- **0%** do not require a course in physics.

MATH

- **24%** require one or more courses in math
- **76%** do not require a course in math

SOCIAL AND BEHAVIORAL SCIENCES

Applicants may be required to complete particular social and behavioral courses or may be permitted to complete any courses in the subject. Psychology is a type of social and behavioral science. Programs commonly allow applicants to substitute specialized psychology courses (eg, abnormal) for general psychology courses.

- **94%** require one or more courses in psychology or social/behavioral science
- **6%** do not require a course in psychology or social/behavioral science

STATISTICS

- **96%** require a course in statistics
- **4%** do not require a course in statistics

SUMMARY OF COURSE PREREQUISITES FOR PROGRAMS IN PTCAS: 2014-15

The number in each column reflects how many times each course subject appears in the program's course prerequisite table on the PTCAS website. This number generally corresponds to the number of courses required for admission to the program. It may also refer to a one-year sequence in a course subject, block of courses, recommended course, or course option within a prerequisite track. Visit the PTCAS Directory for program-specific details.

PT education programs may change course prerequisites at any time and may have additional requirements, preferences, or policies that are not reflected in this summary or on the PTCAS website. Programs may also allow applicants to substitute courses or choose different prerequisite tracks. Applicants should review the PTCAS Directory for program-specific details and contact programs directly to determine whether a particular course will fulfill a prerequisite.

The number in each column reflects how many times each course subject appears in the program's course prerequisite table on the PTCAS website. This number generally corresponds to the number of courses required for admission to the program. It may also refer to a one-year sequence in a course subject, block of courses, recommended course, or course option within a prerequisite track. Visit the PTCAS Directory for program-specific details.

PT education programs may change course prerequisites at any time and may have additional requirements, preferences, or policies that are not reflected in this summary or on the PTCAS website. Programs may also allow applicants to substitute courses or choose different prerequisite tracks. Applicants should review the PTCAS Directory for program-specific details and contact programs directly to determine whether a particular course will fulfill a prerequisite.

* No prerequisite data provided.

** Program may accept or require other courses not shown.

in each column generally corresponds to the number of courses required by the program.
