Interview with Two Professionals Paper

During your placement, you should have the opportunity to observe one or more professional employees, all of whom can be excellent resources for information regarding the career field. You must interview at least TWO professionals for this assignment. You may either choose professional staff from your workplace OR professionals within the field you are pursuing. You can also obtain names through our resources, through the Alumni Sharing Knowledge program (ASK) at King Alumni Hall, or through your own network of contacts. If you choose a staff member, he/she does not have to be your immediate supervisor. DO NOT interview students (including graduate students) or clerical/support staff. Even though support staff are critically important in workplace functioning, the goal of this topic is for you to gain information about professional staff positions. **Paper should be 4-5 pages in length and in essay form (not question/answer) with your interview questions attached to your paper.**

Make sure you inform the professionals that each interview will take approximately 30 minutes. Set up an appointment several weeks in advance of the due date that is convenient for the individual. Call in advance if you must reschedule the interview. Prepare ahead of time a list of questions for your interview to ensure that all the information is covered. These questions should address points of interest to you, your current workplace, and your future career plans. The following are some guidelines to follow.

1. **Introduction**- Introduce yourself, expressing appreciation for the person’s time.
2. **Length of Interview**- If you have not already done this, confirm at the beginning of the interview how long the individual has to meet. If you still have questions to ask at the end of the time limit agreed upon, ask the person if you could make another appointment.
3. **Recording Information**- Ask the interviewee if he/she minds if you take notes or tape record during the interview to ensure that you remember the conversation completely.
4. **Ending the Interview**- Thank them for their time and insight into the field.
5. **Follow up** the interview with a letter thanking the individual for their time.
