

### Alumni Survey - Employment and Certification

The SUNY Oswego School of Education Alumni Survey is an instrument used to measure the completer's satisfaction with their preparation and collects self-reported information regarding the completer's certification and employment. Annually completers from one, three, and five years post-graduation are invited to participate in the survey. These data below are three demographic questions related to employment and certification in our **2019 data collection, including completers from initial and advanced education programs who graduated in 2014, 2016, and 2018**. The invitation to participate in the survey was sent to 390 alumni, 78 responded for a 20% response rate.
