

New York State Teacher Certification Examinations (NYSTCE)

ANNUAL INSTITUTION RESULTS REPORT
TITLE II PROGRAM COMPLETERS FOR 2009-2010

Prepared for the New York State Education Department by Evaluation Systems group of Pearson
July 2011

INSTITUTION: 770 SUC Oswego

DESCRIPTION OF REPORT

This report is organized by test field and presents summary pass rate and subarea results information for individuals who completed a teacher preparation program at the New York State institution indicated during the 2009-2010 year (7/1/2009 to 8/31/2010). Mean scaled scores for the total test are reported as scaled scores in a range of 100 to 300 with the passing score equal to a scaled score of 220. Subarea results are also reported on a scale of 100 to 300.

INTERPRETIVE CAUTIONS

1. This report presents summarized data for program completers, as defined by Title II, Sections 207 and 208 of the Higher Education Act. Program completers are students who have met each educational requirement of a state-registered teacher education program. These are individuals preparing for initial teaching certificates in New York State and do not include individuals preparing for permanent or professional certificates or individuals preparing for only nonteaching titles (e.g., administrator and counselor titles). Effective with the 2009-2010 Title II reporting year, the definition of the academic year for program completers changed from July 1-June 30 to September 1-August 31. Data for the period of 7/1/09 to 8/31/09 were not included in federal Title II data for the 2009-2010 reporting year. This report includes data for program completers for the period of 7/1/09 to 8/31/10. This includes the data for the two months not reported for Title II, plus the 12 months for the 2009-2010 academic year.
2. Identification of program completers for the academic year is based on information provided by New York State institutions of higher education as part of data collection to meet Title II reporting requirements, and is not affected by any information provided by test takers regarding institution affiliation.
3. "Institution type" is categorized as coded in the NYSTCE Registration Bulletin:
"CUNY" = 325-370
"SUNY" = 730-800 & 815
"NY Independent or Proprietary" = all other codes 300-855, exclusive of the ranges specified above
4. "All Institutions" comprises program completers from all New York State teacher preparation programs.
5. This report presents summarized data for program completers for the 2009-2010 year (7/1/2009-8/31/2010) on each test included in Title II reporting. Testing status was determined by matching individual identification information (name, social security number, date of birth) provided by New York State institutions with Evaluation Systems testing records.
6. "N of Takers" is the number of program completers prepared for a certification field for which the test is required who took the test at any time during the five-year period from October 1, 2005 to September 30, 2010. The September 30, 2010, end date allows for the inclusion of test attempts that occurred after program completion.
7. "% Passing" is the percent of program completers who passed the test at any time from October 1, 2005, to September 30, 2010.
8. "Mean Scaled Scores" and "Mean Scaled Subarea Results" are determined based on candidates' first passing attempt or highest total test score if there is no passing attempt.
9. "--" indicates data not shown; results are not presented if the number of candidates in the group is less than 5.
10. Results reported for only a small number of candidates may not provide a valid indication of how such examinees typically perform.
11. Because there are differing numbers of questions for each subarea, averaging the subarea information may not equal the mean total test score.
12. The information contained herein is confidential and must not be disclosed to unauthorized persons. Appropriate safeguards must be implemented by all personnel to protect against improper disclosure of information. Before disclosing any of the information herein, individuals should check their institution's disclosure policies to determine who is authorized to receive this information.

13. Results included in this report are complete as of the date and time this report is released. Additions or changes to this information may occur after this date. The New York State Education Department maintains an updated file of official results for the purpose of certification.
