Educational Administration

Finger Lakes Area

Courses currently held at
Palmyra-Macedon CSD

2017 - 2019
Projected Courses

www.oswego.edu/edadmin
The Educational Administration Department at Oswego State will offer its Certificate of Advanced Studies (CAS) in Finger Lakes Area. The CAS program includes 24 hours of coursework selected under advisement from the courses listed at the left and a 9-hour internship. The program leads to full certification in school administration.

### About the Program
Our program in Finger Lakes area is a collaborative effort between the educational administration professors and area schools:

- Area administrators serve as guest speakers, co-teachers, or instructors in nearly all courses.
- The department works with school districts to help identify high quality internships.
- The department maintains a strong placement program, serving as a liaison between graduates pursuing employment and districts desiring to hire new administrators.
- Teams of students work on “authentic” learning assignments in and for area schools.
- The department promotes strong communication networking between students and practicing area administrators.
