LEGO Robotics: CityCAMP WeDo is our longest-running and most successful course. It was designed so that keen young engineers of the future can learn about new technologies and robots that could improve life in a modern city. To see the solutions in action, children build and program robots of our design. Your child will experience robotics lessons designed to inspire and teach. Ages 7-14

NEW! LEGO® Comics: Design Your Own Adventure! In this LEGO adventure YOU are the star! Pick your favorite LEGO genre or create an alternate universe to create a digital illustrated story or graphic novel. Whether you want to fight alongside Superheroes, create a Minecraft story, hang with the Nexo Knights, or go into space with Rey and Finn, the only requirement is that you put yourself in the story! Ages 7-14

LEGO Robotics: StarCAMP WeDo is a unique lesson plan that takes us into outer space. Constructing and then programming futuristic robot models is a great introduction to physics and astronomy. To further spark young imaginations, some robots resemble those seen in science fiction movies. Your child will experience robotics lessons designed to inspire and teach. Ages 7-14

Mindstorms: is a version of CityCAMP, designed for the newest LEGO robotics set: The course focuses on how robotics and technology can make life easier in a modern city. While building and programming 12 intricately designed robot models, students learn how math, physics and extraordinary machines can bring exciting goals within reach. Ages 11+

SUMMER YOUTH PROGRAMS

oswego.edu/youth-programs
SESSIONS 1 & 2
G. Ray Bodley High School
6 William Gillard Drive
Fulton NY 13069

SESSIONS 3 & 4
SUNY Oswego
Marano Campus Center
Oswego, NY 13126
