III. President's Report – D. Stanley
   The president discussed issues related to the lower enrollment this semester. Enrollment is down by approximately 200 students. The first-year retention rate is up, and the four-year graduation rate went up by more than 3%. Diversity is also continuing to climb. New enrollment strategies are under way. Admissions worked with an enrollment management consultant and is considering the establishment of an Enrollment Management department. We are working with a consultant (an Oswego alum) who has worked in enrollment management at two other SUNYs. Vicki Furlong is helping with day to day leadership in Admissions. She discussed the budget, noting we do historical budgeting. She explained TAP funding and discussed the TAP gap that’s created when we raise tuition that we are responsible to cover because the Legislature does not raise TAP. She noted that we have the reserves to cover our lower enrollment this year, but this is not a situation we want to continue and we will work our way out of it. She discussed the capital budget, new hires and upcoming events were presented. The president’s complete report is on the FA website.
