

**IMPORTANT HDV ANNOUNCEMENT**  
**BIG CHANGES TO THE HDV CAPSTONE AFFECT YOUR PLANNING!**

**WHAT:**

HDV 403 (Field Experience) becomes the PREREQUISITE CLASS for HDV 400 (Research Designs and Applications)

**HOW THIS AFFECTS YOU:**

You should take the HDV 403 Internship BEFORE the HDV 400 capstone class.

**YIKES, but I am a senior and I can't do that!**

That's OK, you may still take them at the same time for the next 2 semesters, Spring 2022 and Fall 2022 because the change phases in.

**HOW DO I REGISTER FOR HDV 400 and HDV 403? (You register for them separately.)**

**There will be ONE SECTION of HDV 403** and one instructor will supervise placements.

- Spring semester HDV 403 will be offered synchronously online Wednesday evenings 5:30 to 7:30 PM.
- You may not self-enroll in HDV 403. You still need to go through EXCEL for HDV internships and follow their steps.
- **There will MULTIPLE SECTIONS of HDV 400.** You can self-enroll in HDV 400 lecture and lab.
