Skills for Success courses help employees acquire the knowledge and skills needed to accomplish job assignments more effectively and provide personal development opportunities. Employees should work with their supervisors to select courses that are meaningful to their professional and personal growth.

Webinar Courses

In order to increase participation in courses while limiting time away from the office, a number of courses are offered via webinar. Webinars allow employees to take courses using a computer, telephone, and Internet connection.

Workforce Development Competencies

Workforce development competencies are foundational job-based skills all employees need in order to succeed across a wide variety of occupations.

The Partnership explored current trends in work readiness and developed a set of standards to serve as a reference for employees and supervisors in selecting courses that are relevant to professional and personal development and are supportive of agency missions.

The competency names and their corresponding icons and descriptions are available on page 6. After each course description you will find the competency icon(s) assigned to the course.
