What is Leadership Oswego County?

Leadership Oswego County is a community program administered by SUNY Oswego’s Office of Business and Community Relations. The Leadership Oswego County program explores community trusteeship, leadership skills, current issues and networking with a diverse group of community residents. Key community members mentor and share with participants about the skills and knowledge needed to be effective leaders. Graduates of the program are better prepared to serve the community in the roles of board member, citizen, employee or volunteer with organizations that serve Central New York.

Leadership Oswego County prepares a select group of county residents to become the community stewards of the future. This group embarks on a nine-month course on Oswego County and its resources, vital issues of today, and visioning for tomorrow.

The MISSION of Leadership Oswego County is to educate committed citizens to become a well-informed, engaged, and diverse network of community stewards.

Dear Graduates,

I am proud to say that since its inception in 1993, Leadership Oswego County has graduated 26 classes. You are now one of over 570 graduates strong! We are your neighbors, coworkers, business owners and leaders. What binds us together is our shared desire to see our community thrive.

As an alumna of Leadership Oswego County, I am aware of the commitment and challenges you took on. Each year a diverse group of community members embark on a ten month journey with the hope that together they will learn, share and grow from the experience. I hope that this has been true for all of you.

Over the past year, you’ve been presented with vast amounts of information and history about our county, its resources and its challenges. As we learned about countywide issues and the people who work tirelessly to make Oswego County a better place to live, I hope that you all began to see yourself as part of the dynamic group of community stewards.

Through your team project, you identified an issue that you were passionate about and together developed and executed a plan that has made a positive impact on our community. Through your cooperation, you demonstrated dedication and a selfless investment of time and energy, which are at the heart of community stewardship. Each year the outcome of the project is as unique as the exceptional group of participants who imagine it.

Our Leadership Oswego County Program is very fortunate to be able to offer this opportunity through the support of many local businesses and organizations, as well as a roster of committed individuals who work very hard in order to make this program a success. These dedicated volunteers design the activities for each class, conduct fundraising, recruit participants and serve as ambassadors for the program and to them I offer my humble thank you!

As graduates of Leadership Oswego County, I hope you are prepared to answer the call. “What positive contributions can I make to the community?” I hope that you will be not only a steward of our community, but also of the program, and are emboldened to dream and share your aspirations and visions of the future with others. Most importantly, I encourage you to advocate good citizenry— to be a voice, to take part in and to build and sustain a healthy community for all.

Best regards,
