ANNUAL REPORT
2009–2010
Forward into the Future:

Academic Affairs Annual Report, 2009-2010

The Academic Affairs commitment is to provide distinctive curricular and co-curricular programs, academic support services, scholarly and creative work, and contributions to our communities in support of institutional vitality, intellectual rigor, engagement, world awareness, and solutions.

Academic Affairs Council 9-5-07

As a division we will work to expand resources and to allocate resources in a manner that strengthens academic excellence even in challenging budget times.

Fall 2008

This year’s annual report focuses on the ways in which the Academic Affairs division has continued to move academic programs and services forward into the future. In recent years we have made significant progress in a number of areas that enhance student learning and prepare students for success in an interdependent world. We are doing this in the context of the mission statement of the division affirmed by the Academic Affairs Council in 2007 (see above). Through the hard work and commitment of many, faculty and staff members have continued to pursue academic excellent even in these challenging budget times.

Our division-wide efforts have been organized around the fulfillment of the goals of the strategic plan, “Engaging Challenge” in order to ensure the success of our students and of SUNY Oswego into the future. This report, therefore, focuses particular attention on the annual projects/goals of the division this year and is organized in relation to the campus strategic goals. Within classrooms and labs and the corridors of our buildings students and faculty are involved in learning for the future. Those activities are too numerous to mention, except by example here. However, they are the foundation upon which all else is built. More about those activities can be found in the school/college reports and in department reports.

Vitality

The vitality of an institution comes from the energy and optimism of its people and their activities. SUNY Oswego faculty members are enormously creative in envisioning programs that will serve students into the future, and they demonstrated that energy in new and revised programs this year. Faculty members have been partners with regional and national leaders in developing programs, like engineering, that will attract new students and revenues into the future. Programs supporting student success continue to evolve under the leadership of a strong professional staff, while our new faculty members bring new knowledge, skills, and perspectives
into their programs. Faculty and professional staff are also playing an important role in the planning for new learning facilities on campus.

Innovative Programs and New Program review discussions

The development of new and engaging program options for students continued this year, especially in support of the Metro Center. For the Syracuse site, faculty members developed new graduate certificates in Trauma Studies and Integrated Media and Social Networking, and two accelerated master’s programs for Initial Certification (MST) in Childhood and in Adolescence.¹ Students are now enrolling there in the recently approved certificate programs in Gerontology and Play Therapy. Other programs for the Metro Center are in development, including ones in Health and Wellness, Health Information Technology, and Health Communications. All these new programs serve urban professionals, who hope to advance their credentials for employment.

Other new programs to be offered on campus have been approved or are in development. A Professional Science Masters in Human Computer Interaction has been submitted to SUNY. The new Electrical and Computer Engineering program and an Audio minor will be submitted to SUNY this summer. An exciting new opportunity for the future developed when we were recently awarded a partnership agreement with the Peace Corps to offer academic training at the graduate level in mathematics education and agricultural education (VTP). Members of the Biological Sciences and Chemistry have worked on a possible biotechnology program for a partnership in Dubai; this would open some interesting international opportunities for science faculty members and for students. Other discussions are underway regarding a technology management certificate and an accelerated Mental Health Counseling Program. Also in development are several 5-year undergraduate-graduate programs. And, finally, it is worth noting that the new Software Engineering Program admitted its first class of 18 students last fall.

Vibrant programs are constantly in evolution to keep them up-to-date and preparing students for the future. The School of Education has been particularly busy. Two new interdisciplinary concentrations for Childhood Ed majors were developed in African and African American Studies and in Fine Arts. Concentrations in English, Social Studies, Earth Science, Chemistry, Childhood Science and TESOL were also revised. MSED Literacy Birth-Grade 6 and MSED Literacy Grades 5-12 were revised to meet current International Reading Association Standards. And the MSED Special Education was revised to include a new strand for professional certification in Special Education Grades 1-6. Faculty members in Technology are

¹ 09-10 annual goal: Departments and interdisciplinary groups will collaborate with Extended Learning and Graduate Studies to enhance current offerings, to launch and promote several new graduate certificates, accelerated programs, and professional development workshops, particularly at the Metro Center, and to increase on-line course options for Summer and Winter Sessions.
updating their curriculum in technology education in anticipation of the renovation of technology laboratories.

Programs in the College of Liberal Arts and Sciences that were revised this year included Philosophy-Psychology, Political Science, Biological Sciences, Biochemistry, Geochemistry, Information Science, and Women’s Studies. Additionally, the School of Business implemented an ethics program that consists of Standards of Professional and Ethical Conduct, an ethics primer, and coverage of ethics throughout the core curriculum. Hart Hall faculty proposed that their IST courses be used for General Education credit; this was approved by Faculty Assembly and we are awaiting approval from SUNY. Pamela Brand, Maureen Curtin, Lisa Langlois with Rob Auler, Taejin Jung, and Hetty Gingold with Leela George and Suzanne Gilmour are using Curriculum Innovation Grants this summer to create new courses for their programs. One of the new courses in SCMA, Arts and Ideas, will serve as a general education course for all of the arts.

However, the reality is that we cannot continue simply to add new programs and courses on top of what we already do. So, we began a discussion early in the year with department chairs and program directors about what aspects of a program need to be taken into consideration in decisions about a program’s viability, importance, and potential for success. We talked extensively about ensuring time and attention for students in a program, flexibility for faculty and students in their scheduling and studies, and agility in program development and program elimination. The conversations evolved over the year and included discussions at an Academic Affairs retreat, Academic Policies Council, Graduate Council, Priorities and Planning, and Provost’s Council. Discussions focused on building high quality programs for SUNY Oswego, what is required for operating a strong program, ensuring program completion by students, and evaluating the program’s impact and needed funding.

In the discussions, everyone recognized the need to prioritize and to eliminate some activities, courses, or programs when new programs are launched. When all ideas were collected, the series of questions to be answered by proposers and to be reviewed by program review councils was returned to Faculty Assembly leadership and councils for discussion in Fall Semester 2010. The new program planning guidelines could help ensure consistency and rigor in the review process and will help to make decisions about discontinuing programs and courses as well as adding them. In the meantime, a number of departments have made changes in their majors to allow greater flexibility in electives for students and in the teaching schedules for faculty members. For example, the MSED Curriculum & Instruction was revised from a 36 credit program to a 30 credit program.

---

2 09-10 annual goal: Keeping in mind our need for flexibility and agility, we will begin to make strategic decisions about our undergraduate and graduate programs for the future.
Metro Center and other Extended Learning Programming

The Metro Center is on the road to success. Enrollments continue to grow and revenues to increase. The Course-to-Connect Initiative (Summer 2009) attracted 123 students, 37% of whom enrolled for at least one course this fall. New program development in other areas, mentioned above, is helping the Metro Center to grow. This past spring, we pursued and were awarded Extension Center status for the Metro Center by the State Education Department. To offer complete programs at the Metro Center we will need to have Branch Campus status; this will be a project for the upcoming year. Extended Learning has begun to prepare the paperwork.

![Metro Center Enrollments by Term](image)

New approaches to scheduling courses in response to students’ needs are also helping to make the Metro Center a success. VTP has been teaching courses at the Metro Center on a Friday evening/Saturday schedule as well as using an asynchronous online platform for the majority of their classes. Beginning this year, part-time students in Syracuse can complete the MBA through a combination of Metro Center and online courses. Some of the online courses are offered through a partnership with SUNY IT. Better marketing and a more robust class schedule of offerings increased MBA student enrollment by 40% from Spring 2009 to Spring 2010.

Marketing and outreach for new programs is crucial for Metro Center success. Therefore, both Graduate Studies and Extended Learning have become more attentive to new marketing approaches. They recommended the purchase of Intelliworks, a software package that will provide contract management, e-marketing, social network marketing, analytics, and on-line applications processes for degree and non-degree programs. Both offices are beginning work this summer on implementation.
Summer and Winter Sessions provide important revenues for the campus and the reserves they have generated were used this past year to enable us to keep offering the same numbers of courses and almost the same percentage of small classes as in the previous year. It is important to note that Summer enrollments at the undergraduate level have been increased by 228 since 2004; graduate enrollments are higher than 2007 but still struggling. Winter sessions enrollments continue to grow, as do online offerings. The number of online courses offered during Summer Sessions 2010 (relative to Summer Sessions 2009) increased from 75 to 100 and Winter sessions from 20 to 28.

Extended Learning has added new courses and new approaches for program delivery in the summer. During Summer 2009, Extended Learning, in conjunction with the Physics and Technology Departments and the Office of Business and Community Relations, revitalized the SUNY Oswego Energy Institute. Students received scholarships through a grant from the
Department of Labor. The Institute is being offered again this summer. Extended Learning introduced “May Term” for the first time in 2010; May term is a two-week offering of classes beginning prior to the official start of Summer Sessions (May 17-May 28). It was anticipated that students might want to stay two weeks in May, rather than returning for a Summer session later in the summer.

Increasing Student Success

We have continued to seek new ways of supporting student success in partnership with Student Affairs. This year we participated in the national program, Foundations of Excellence, sponsored by the Policy Center on the First Year of College, to review and evaluate our programs for first year and transfer students. A committee of over sixty faculty, staff, and students led by co-chairs Rameen Mohammadi and James Scharfenberger, participated in self-study committees focused of various dimensions of the project. Committee members evaluated us in relation to national best practices. Preliminary findings suggest that we do a good job overall in delivering our First Year programs and that we have started good programming for transfers. Some areas identified for possible improvements include: math placement, faculty advisement and recognition, assessment of learning outcomes for first year, information on incoming transfers, and on-going assessment of services. The steering committee also drafted an institutional statement of philosophy for our programs for which the group will seek approval from faculty and administration in the fall. Recommendations will be forthcoming to the campus.

In addition, the Retention Steering Committee reviewed data that suggested that a midterm intervention with first year students might make a difference in their rates of success on campus. They tried two pilot programs with faculty members in the First Choice program and other volunteers. Results seem to indicate that students benefited from the early alerts. Student Success workshops were offered to students who found themselves in difficulty at the end of the first semester.

First Year Programs and Transfer Services offices in the Compass enhanced their activities supporting students this year. The First Year Programs coordinator, Michelle Bandla, worked with instructors and the Retention Steering Committee to develop an early Alert Website and worked with them on the midterm pilot. She helped develop and present the “Choosing Success Workshop”. She worked with Institutional Research to create an online First Year Advisement Tracking form to be launched in Fall 2010. Transfer Services coordinator, Chris Hockey, again sponsored MOST, a mentoring program for transfer students that has grown to 125 participants. He has developed transfer specific opening week events. TransferEdge, helping students with 45 or more credits enroll with their campus cohort, was a success.

---

3 09-10 annual goal: Faculty members will participate in the Foundations of Excellence (first year and transfer self-study) project. Departments and programs will develop plans to implement the resulting recommendations as well as those from the Retention Steering Committee.
Others are working on facilitating student success. **Department chairs** helped with scheduling so that 51% of our classes had 19 or fewer students. The **School of Business advising center** developed an advising form for newly matriculated transfer students. **Penfield Library** and the Office of Learning Services have also worked on projects to promote student success. The Penfield Library website now has several five-minute video clips with brief, clear explanations of “How to ….” use the Library effectively. One focuses on “Services for Distance Learners.” In addition, the library has moved the English 102 online tutorial into Angel, making it easily accessible within courses. Using Angel, the library staff can assess how well students are learning concepts being taught and will be able to identify areas where changes are needed. They have created a Facebook “fan” page for connecting students and faculty. The **Office of Learning Services** has piloted an online writing tutorial called SmarThinking; assessment of its success is underway. OLS outreach to the campus at large is increasingly successful. The Math and Science Center saw a 21.2% increase in the number of students tutored and a 32.3% increase in the number of hours tutored. The Writing Center’s productivity levels related to hours of tutoring increased from last year’s 52% to 76% for 2009-2010. OLS offered 32 workshops for the campus related to tutoring issues. In addition, they have significantly increased the engagement numbers of EOP students across campus. In fact, their new programming with EOP students resulted in a higher retention rate last year for EOP students than others. Finally, OLS has purchased a database, Tutortrac, in collaboration with Campus Technology Services (CTS) for 2010-2011 start-up. This program will ensure more efficient identification of tutor-tutee pairs.

There were other projects to promote student success this year. Programs across campus identified the needed **prerequisites** for successful progress through courses, and we are fully implementing prerequisites in fall registration. We have also implemented the new federal **textbook law** so that students can know what books will be required for courses when they enroll in them. The **Task Force on Admissions to Majors** completed its recommendations this spring, and Faculty Assembly endorsed them; these recommendations clarify for all students—new, continuing, or transfer—what the requirements for declaring or changing a major are. **OIEP** offered a new, more cohesive program for international students, including orientation, new social events, and a farewell reception. **Extended Learning**, in consultation with student accounts, modified the process of deregistration for summer school, giving students a longer period of time to pay their bill. The **Diversity Advisory Mentoring** sub-committee is developing a program for peer mentors for incoming students of color. The **Teaching and Learning symposium** upcoming in the fall entitled “Communicating Diversity and Diversifying Communication” will focus on pedagogical and curricular topics related to serving students of color. All these projects are contributing to student success.

**Energetic Faculty and Staff**

Departments across campus are looking forward to nine new tenure-track faculty members coming to campus in the fall. We continued our strong commitment to **increasing the**
diversity of our faculty by hiring seven women, four persons of color, and two from other countries. We are making progress in regards to diversity; we now have 20% of our faculty who are persons of color or international. Mentoring for all our new faculty begins with the New Faculty Orientation program at the beginning of each academic year. Underrepresented faculty members of color are invited to participate in a Core mentoring group sponsored by UUP.

Many of our current faculty members are known for outstanding teaching and advising. Winning the President’s and the Provost’s Awards for Teaching this spring were Cynthia Clabough (Art) and Thomas Delduchetto (Marketing and Management). Jessica Reeher received the President’s Award for Excellence in Academic Advisement. They will be honored at the Symposium on Teaching and Learning in the fall. Active and engaged learning is a characteristic of best practices in teaching. There are many examples across campus mentioned in reports. In Forensic Economics (L. Spizman), students were engaged in estimating damages, studying expert testimony, and hearing from lawyers, for example. Two courses in the Education Administration Department have integrated a wiki and a moodle to promote active learning. Student teachers as well as cooperating teachers created art work for a Tyler Hall exhibition last spring. Organizational Communication (J. Knapp) students created podcasts about soft skills. Media students (Mejias) conducted a research project exploring the internet as
a venue for simulation, collective problem solving and social organizing. They also used social media tools to explore present and future challenges of racism.

Professional development activities continue to expand under the leadership of CELT. A record number of workshops were offered. CELT sponsored three faculty learning communities (on large-class instruction, diversity, and student engagement) and greatly expanded information available on their website. Some interesting workshops related to adopting new technologies in support of teaching: Second Life in Higher Education, Using ANGEL to Develop a Mastery Learning Quizzing System, Using Clickers in the Classroom, and Team Based Learning, for example.

Facilities Renovations and Operations

Planning for facilities’ renovations and construction occupied many people’s time this year. Steering committees in the sciences/math and in education have been busy reviewing and revising architectural plans. This summer many faculty members are moving their offices and preparing to teach in new locations in the fall as the new sciences project gets underway. Over the course of the year, there were many meetings reviewing plans for the new construction and renovations. Faculty members in the sciences, engineering, and math as well as those in education are looking forward to the changes that will result in state-of-the-art learning facilities for their students. Plans for the development of a new facility at Rice Creek Field Station are well underway in conjunction with renovations on campus.

The construction impacts all parts of the campus. Penfield Library, for example, has been busy with cleaning spaces in the basement and will have new dehumidification installed due to the move of Snygg’s Math and Science collections back to Penfield. Once the cleaning and dehumidification are accomplished, the Library will also move large segments of older periodicals into storage, opening up space on the second floor for some of the projects recommended by the college-wide Library Visioning Committee several years ago. Other projects in the library have advanced the idea of a learning commons. In spring, the CTS student presiding over the library lab was moved into the Library lobby to provide a more visible point of access for tech help. The Library joined with CTS to install a multi-media lab on the 2nd floor of Penfield to support faculty podcasting. This summer two high-tech pods ("igloos") will be constructed to support group study with shared computing.

Other SUNY Oswego locations have also seen changes. The Metro Center has become one of the well-respected venues of Syracuse. In fact, the Metro Center was awarded the Downtown Committee’s (MDA) Award of Excellence in 2009 and was publicly recognized at a major meeting held at the Museum of Science & Technology. The Metro Center hosts important visitors like Chancellor Nancy Zimpher and many professional meetings, such as the EOP Professional Day. The School of Business offered GMAT review classes for prospective students and worked with Becker to deliver the CPA Review Course. The art exhibits that are
now part of Third Thursday are well known and much anticipated by the community. Here, too, there were changes. Technology was upgraded by the planned addition of a virtual computer network.

**SUNY Oswego Phoenix Center** has been evolving in its mission and outreach. During the last year Extended Learning established a partnership with the Oswego County Teacher Center. The Teacher Center now operates out of the Phoenix Center which brings area educators to our facility for various classes and events. The Phoenix Center also hosted the US Census Bureau Training for supervisors and workers for 5-week long training sessions. There were upgrades here as well. Advanced Technology Podiums were installed in two of the classrooms, and new Smart Carts were installed in the Computer Lab as well as one additional classroom. Smart Boards, installed in two of the classrooms, have been used extensively by our School of Education faculty and students.

**Intellectual Rigor**

This goal of the sesquicentennial plan is, of course, a core value of Academic Affairs. Continually we have looked for ways to strengthen the learning experiences of our students. We have undertaken a variety of projects over the last several years and during this year continued with some of those, including discussing our expectations related to the scientific and quantitative literacy of our graduates and to general education. Scholarly and creative activities have blossomed for students and for faculty members. Programming beyond the classroom is flourishing. So, as the Middle States Review was launched this spring, many recognized that we had made enormous progress in the past ten years. We truly have been moving into a successful future.

**Scientific and Quantitative Literacy**

The Committee on Scientific and Quantitative Literacy had a busy year and submitted a final report to the Provost who forwarded the report to the General Education Committee and the General Education Visioning Task Force for their consideration in the Fall. Committee members, led by co-chairs Jean Hallagan and Carolina Ilie, participated in three events related to SQL teaching. They started a website and a blog through CELT. They focused most of the year on testing whether the assumption about students not having a reasonable level of scientific and quantitative literacy is true. During spring they conducted a SQL survey of students’ learning with 205 students participating. Results suggest differences based on majors and gender but not on class level. In addition, the group asked departments to complete a curricular inventory of ways they address SQL learning in their offerings. They received responses from Communication Studies, Modern Languages and Literatures, Philosophy, Physics, Political Science, Public Justice, Marketing and Management, Accounting, Finance, and Law, Curriculum and Instruction, and Health, Promotion, and Wellness. Recommendations overall included having discussions of the findings in the General Education groups, another study using
embedded questions in final exams, better use of placement exams in math, incentives for faculty using active and experiential methods of teaching, and increasing capacity for SQL in education students because of their impact on the future.

General Education Council and General Education Visioning

The General Education Council had a busy year. They approved 8 new courses for SUNY general education categories and gave provisional approval to an intellectual issues course from Meteorology in Carbon-free Energy. The council considered and approved critical thinking infusion and assessment plans from several departments and a new computer and information literacy infusion plan from C&I and Art. Over the course of the year the Council had many discussions about the future of general education, prerequisites for Intellectual issues courses, the biotechnology degree development, and changes in the SUNY GER policies. The Council completed its first assessment of Tolerance and Intolerance and of Intellectual Issues. It also completed the first assessment of the infused approach to critical thinking. Results are in the process of being analyzed.

The General Education Visioning Task Force, launched spring semester, was charged by Faculty Assembly and the Provost to assess our current program, to study new approaches being adopted in higher education across the country, and to provide a report to the Provost and Faculty Assembly about their findings.4 Campus-wide conversations about a new general education program were started when all department chairs and program directors shared their ideas about general education at the Academic Affairs Retreat in January. The committee has studied materials from AAC&U and many other campus programs and it has developed a list of characteristics of the best programs. Members have reviewed possible learning outcomes. They will compile their findings this summer to launch a campus-wide discussion in the Fall.

Scholarly and Creative Activities

Being engaged actively in scholarly and creative work is a commitment of many of our faculty members. In this way, they not only contribute to knowledge in their fields but also enrich their teaching and become role models and collaborators for their students. One hundred seventeen faculty members and staff reported on one or more publications this year. (Appendix F) One hundred ninety-five faculty members and staff reported on one or more presentations, exhibitions or other scholarly and creative work this year. (Appendix D, E)

The scholarly and creative work of our faculty members was honored by off-campus groups. For example, Jin Bumsub (Comm S) received an Outstanding Doctoral Dissertation Award from the International Communication Association, Mark Springston was named 2010 Leaders to Watch by the Board of International Technology and Engineering Educator, Kate

4 09-10 annual goal: A taskforce will lead a year-long campus-wide visioning process for general education of the future by soliciting broad input from the campus and by studying trends in the content and delivery of general education across the nation. It will deliver a report to Faculty Assembly and the Provost by the end of the year.
Timm received an Award of Merit from the Cooperstown Art Association, Harrison Yang received the Philip Martin Award from the GCNY Education Consortium, and Leigh Wilson was an Honoree of The Tennessee Literary Project. Jane Winslow received a Bronze Award at the International Media Festival and a fellowship to the Academy of Television Arts & Sciences Foundation, while Helen Knowles received special invitations to two institutes. Appendix C lists honors that faculty members were awarded this year.

Several faculty members and professional staff also received significant external grants. Grants over $100,000 were received by Barb Beyerback and Marcia Burrell, Suzanne Gilmour and Linda Rae Markert, Fritz Messere, Jack Narayan and Adrianne Morton, Jim Pagano, Yvonne Petrella, Paul Steward and Ed Lonky and Jackie Rehman. Other important grants were also secured by faculty members to pursue research or other activities. (Appendix J) While the awarded funds for Academic Affairs awards increased this year (from $2.5 to $2.7 million) in comparison to last year, the campus total did not increase beyond $5 million. This is an issue that needs to be re-examined as a very important part of campus advancement to the future.

Our students were also very engaged in scholarly and creative work because of the encouragement of faculty members. Departments reported on 1709 students who collaborated with faculty members on research projects and 189 who did research on their own. The first is significantly higher than last year’s report. Appendix A gives reports of 63 students who presented or published their work off campus. Over 55 students received travel grants for presentations at conferences from the Provost’s Office. Other funding for student travel was provided by ORSP and the deans.

The Summer Scholars Program, launched with $50,000 from donors to SUNY Oswego, is off to a successful start, thanks to the planning of SCAC. Thirty-one students are working with faculty members this summer on projects that will advance the faculty member’s scholarly or creative work. Faculty members with student assistants this summer include Jean Ann, Leigh Bacher, Robert Ballentine, Kestas Bendinskas, Diana Boyer, Martha Bruch, Fehmi Damkaci, Matthew Dykas, Lisa Glidden, Laura Brown and Margaret Ryniker, Venera Jouraeva,
Taejin Jung, Anthony Kettle, James Mackenzie, James McDougal, Melsome Nelson-Richards, Julia Offen and Jane Winslow, Casey Raymond and Dan Tryon, John Schwoebel, Lisa Seppi, Paul Tomascak, and David Valentino. Projects range from Native American Art to Natural Fractures in the Paleozoic Strata of Central New York.

This year SCAC also awarded Student-Faculty Collaborative grants to Kestas Bendinskas and Carolina Ilie with Damian Schofield for advanced work with their students. Faculty SCAC grants were awarded to Tim Braun, Arvind Diddi, Neil Gostling, Eric Hellquist, Adrian Ieta, Trevor Jorgensen, Shashi Kanbur, Anthony Kettle, Ulises Mejias, and Karen Sime. Student SCAC grants were awarded to 16 students. Our investment in the scholarly and creative projects this year through Summer Scholars and other SCAC programs totaled $90,351.

This year’s Quest, held on April 21, included 275 presentations with 419 presenters, 387 of whom were students—a record number. Both undergraduates and graduate students were involved alongside many faculty members. New this year was the Sustainability Fair, attended by approximately 500 students and faculty members. The day also included new sessions on International Education with 9 papers presented by international scholars and study/research abroad students and one on Diversity with 7 presentations from students and faculty members. Several presentations were available through Second Life on the internet. The President’s Award for Scholarly and Creative Activity this year was presented to James Seago (Bio Sci) and the Provost’s Award was given to Barbara Garii (C&I).

New research centers, established for the purpose of increasing research, seeking grants, and enhancing visibility of scholarly and creative work, have been successful. These are approved through a process established previously (www.oswego.edu/administration/provost/documents.html). The Center for Accounting Research and Education sponsors student activities and faculty professional development. It raised $23,000 from corporate sponsors and accounting alumni this year. The Human Resource Management Center was established to support community outreach, research, diversity initiatives, continuing professional education, student education, social responsibility, and consulting in Human
Resource Management. A Center for Finance, Insurance, and Risk Management has already been endowed by generous alum. Elsewhere, the School of Education has established the new revenue-generating Educational Leadership Institute (ELI). The Educational Leadership Institute is a statewide provider of high quality professional development programs serving licensed and emerging educational administrators in New York’s P-12 academic community. During its inaugural year (April 2009 – May 2010), the institute delivered 26 multi-day workshops across the state with the majority delivered in Central & Western New York.

Research activities have moved beyond the central campus and even beyond the US borders. Rice Creek Field Station is evolving from a biological field station to an ecological facility that serves a number of campus and off-campuses constituencies. There is now ongoing research from Professors Hernandez, Laure, Back, Hellquist, Mohamed, Rosenbaum, Welsh and Sime from the Department of Biological Sciences as well as research by Professors Valentino, Boyer, and Tomascyk in geology. Beyond the US, Shashi Kanbur, Gerry Forbes, Doug Pippin and others were involved with students in research projects in Brazil, India, and the Bahamas.

Creating an Engaging Academic Environment

Regular programming of College Hour and other events continues to enrich the lives of our students, faculty and staff and to enhance the academic commitments of the campus. It would be literally impossible to name every event that occurred over the course of the year but many have contributed their efforts to organize such events. Science Today programs bring a rich array of speakers for students and faculty. The Media Summit was a successful event and put more than 800 students in touch with two dozen professionals who came to campus. In addition, the Media Summit was broadcast later through video tape recorded by students and faculty. Many events bring international speakers and performers to campus; these are often partially supported by the Office of International Education Programs. The ALANA conferences and the ML King Jr. celebration continue to bring positive programming to students and faculty members.

ARTSwego and its collaborations with Theatre, Music, and Art, continues to enrich the life of the campus. For example, this year ARTSwego worked with faculty and staff on the year-long interdisciplinary theme, Arts, Identity & Diaspora. Following a preliminary workshop at the Metro Center last spring, four selected artists returned to the campus for intensive residencies--including public performances, class visits, WRVO interviews hosted by Jessica Hester, and college hour presentations. Each visit was special. We are reminded of the value of this programming by its many awards. In partnership with the Music Department, ARTSwego was awarded the prestigious Chamber Music America/ASCAP Adventurous Programming Award at the 2010 Chamber Music America Conference in New York City, one of only ten grants nationwide. Presentations included an insightful lecture/demonstration on the influence of the African diaspora on classical music.
Several professional conferences contributed to the life of the campus this year. In April the Mathematical Association of American Seaway Conference met on campus. The Mathematics Department was the host for this conference that brought over 170 mathematics faculty and students to the Oswego campus. A Forensic Sciences Conference, held in March, involved faculty and staff from the programs of Anthropology, Chemistry, Biology, Psychology, Software Engineering, Human Computer Interaction and Public Justice along with professional staff from the Compass and from Alumni Relations. The conference was planned in collaboration with the New York State Forensic Science Unit, which sent a number of its employees to present at the conference, including Professor Michael Baden, considered to be the father of modern Forensic Pathology, as the keynote speaker. It was well attended by students, faculty, and members of the local police forces.

**Middle States Reaccreditation and Other Assessments for Improvement**

We began preparations for our Middle States re-accreditation visit scheduled for Spring 2012. Julie Pretzat and Liz Dunne Schmitt were named co-chairs of the project. Steering Committee members included: Nancy Bellow, Joe Moreau, Bernie Henderson, Robert Moore, Kathy Evans, Marcia Burrell, Frank Byrne, Jessica Hester and Dean Crawford. This year the Steering Committee nominated participants for the Self Study Work Groups to President’s Council and helped develop the content for our design document, a manuscript that establishes the approach to the self-study process. The design document was created in collaboration with President’s Council and was presented as a draft to our liaison when she visited the campus in late April. Approximately 100 faculty, staff, students, and administrators will be working on Work Groups as part of the self-study process next year. Faculty Assembly, therefore, voted to set aside every other Friday during College Hour time for the Work Groups to meet.

An important part of the Middle States re-accreditation process will be a review of our learning outcomes assessment process. Last summer we appointed Brad Wray, Philosophy, as the campus Assessment Coordinator. He has had a busy year meeting with departments and making presentations to faculty groups about Middle States expectations for assessment. In the spring, Faculty Assembly authorized an Assessment Advisory Committee to work with Brad to promote assessment by sharing information about best practices in assessment with the campus, by working with the coordinator to ensure that SUNY Oswego is meeting assessment and continuous improvement expectations of our accrediting bodies, and by making recommendations to Faculty Assembly about policies and procedures related to learning outcomes assessments. Committee members include: Patrick Murphy, Bill Goffe, Randy Odendahl, Raihan Khan, Jean Hallagan, John McCarthy, Jennifer Knapp, Kathryn Johns-Masten, Chris LaLonde, Mehran Nojan, and Rameen Mohammadi.

---

5 09-10 annual goal: The Co-chairs and Steering Committee for the Middle States Review will begin their work by creating a design for the self-study. The Assessment Coordinator will work with departments to review their assessment plans in relation to Middle States expectations.
Program reviews and accreditation visits help to promote continuous improvements. In SCMA the Art Department underwent a review by a NASAD accreditation team. The visit to campus resulted in validation of strong programs and some recommendations for improvements. In CLAS, programs in Physics, Mathematics, Public Justice, Anthropology, and Women’s Studies completed self-studies and reviews from outside consultants this year. They will develop MOUs for improvements in the Fall. Other departments are using annual assessments for improvements. The Biochemistry program gave their students a nationally standardized ACS final exam and the German program gave their students the Goethe Institute language proficiency exams. Programs in SOB and SOE have continued their annual assessment work in preparation for their next reaccreditation visits. SOB completed one assessment cycle and approved learning goals and objectives to be measured in the next cycle. Assessment of writing last year led to the creation of a task force to review and modify the writing plan. SOE is using an assessment software package, Tk20, to generate aggregated and disaggregated data for reviewing candidates’ performances as related to NCATE standards.

Other programs and services across the division remain committed to continuous improvements based on findings in assessment data. This year, for example, the self-study process of the Foundations of Excellence will set us on a course of improvements in First Year Programs and Transfer Services as well as other parts of the campus. Penfield Library is preparing to use a national assessment tool to assess student information literacy skills at a more advanced level than we have in the past. They will begin to use an assessment instrument during the upcoming year. They have also been using assessments to improve all of their programs and services.

Engagement

This year we linked the goals of engagement and solutions because of their interrelationships, but for purposes of this report they are separated. Members of the Civic Engagement Coalition have been more active than ever in promoting student and faculty interest in civic engagement, service learning and internships. Many groups are involved in civic engagement activities. Participation in community service by faculty and students also remains high. Many of the activities focus on finding solutions to regional, national, and international issues—discussed in the section entitled “Solutions”.

Civic Engagement, Service Learning, and Internships

The Civic Engagement Coalition and coordinator, Nola Heidlebaugh, have been very active this year. In fact, Nola and colleagues in the Compass are now preparing the application for the Carnegie Engaged Campus designation. Among the major activities this year

---

6 09-10 annual goal: Individuals and groups will collaborate with others in Oswego and Central New York on projects to expand community sustainability efforts; to strengthen schools, organizations, and agencies; and to enhance the quality of life in our area.
organized by the coordinator with the help of many others were Constitution Week; Freed speech/Free Press Film Series; Panel Conversation about Health Care Reform; Student Citizens’ Academy on Sustainability; and the establishment of Civic Engagement Awards.

Many other groups also sponsored events that contribute to civic engagement. Examples include the Science Café on Home Energy Efficiency and Renewable Energy Sources, Voter Registration, ALANA Debates, SIFE’s Panel on the Economic Crisis after One Year, and the Sustainability Fair. Efforts to enhance the understanding of current political and social issues have increased. The Political Science Department was active in inviting members of the community to join with faculty and students in meeting with our local representatives, US Congressman Bill Owens and New York State Senator Darrell Aubertine.

More students than ever are involved in service learning. Many examples were reported this year. Barry Friedman and the Office of Business and Community Relations linked students with organizations for HR audit studies. The English Department created a new capstone, “Words in the World” which gives senior English majors the chance to put their writing and research skills to use in real-world situations, creating writing projects for non-profits, labor unions, and community groups in Oswego and Syracuse. Students in Professor Sargent’s class (Psych) in Applied Animal Learning help re-socialize shelter dogs in preparation for adoption. Maria Murray’s literacy students (C&I) are tutoring at Salem Hyde School in Syracuse. Jim McDougal (CPS) and Murray (C&I) have students doing reading assessments and interventions. James Early (CS-SE) organized a service-learning project to assist Harborfest with the organization of the 2010 festival. Students surveyed coordinates of power, water, obstacles, etc. and created virtual models of the potential venues for vendors and amenities using Google Earth and Google Sketchup. In the fall his students worked with the music students to create a web-app that generates reference tones for tuning instruments in different historical temperaments.

The internship office, Experienced Based Education, is always busy as students seek to apply their learning in real world settings. This year the office migrated to a nation-wide internship data-base supported by the National Association of Career Educators. More internship opportunities for graduate students have been identified. The EBE director, Paul Roodin, provided workshops and other presentations on internships to classes, programs, and other groups on campus and at the Metro Center. The office expanded its presence on the web with a Face Book fan page, which has increased communication and connections with students. It should be noted that many students who use the services of the office do not choose credit for the experience so the numbers of students in our charts are an underestimate of the services actually provided.
Community Service

Many of our faculty members and professional staff as well as students volunteer their time in service to the campus and community. Their efforts are well documented in Appendices G, H, and I. Departments and their students are also engaged in a variety of interesting projects for the community. For example, meteorologists are involved with a wind power company in helping to select sites for wind power generation. They are running the Weather Research and Forecasting (WRF) computer model to develop the wind climatology at wind generation hub height. Beta Alpha Psi, Accounting and Finance honor society, logged 1327 volunteer hours during the academic year, including a toy drive, tutoring, park cleanup, Haiti relief and fundraising for American Cancer society. Public Relations students planned and carried out the 19th annual SUNY Oswego United Way Walk-a-thon. In the past year HCI students developed 3D models of buildings on campus and in the community to provide to Google Earth. PR students worked with Oswego High Theater club to boost attendance at their annual performance. The Library again collected “Food for Fines” at Thanksgiving. They also collect old cell phones for victims of domestic abuse, send books to Africa, share popular reading with residents of local nursing homes, and employ high schools students to introduce them to a workplace environment.

World Awareness

Preparing students to be successful in this century means helping them develop multicultural and global knowledge and skills. Therefore, over the past five years our projects have focused on expanding opportunities in the curriculum, in campus life, and in the world for students to experience and apply their knowledge and skills. Our task this year was to push forward on curricular opportunities for student learning. We also strengthened study abroad opportunities, campus opportunities related to diversity and international engagement, and better coordination of our efforts.
Institute for Global Engagement and other groups

The SUNY Oswego Institute for Global Engagement was formally approved by Provost’s Council this fall for the purpose of promoting synergies among international offices and activities on campus, generating ideas for strengthening internationalization, and raising external funds from grants and other sources to promote internationalization/globalization of the campus. Its mission states, “In support of SUNY Oswego’s mission, the Institute for Global Engagement will support global activities on our campus. It will encourage the development of international research and scholarship, act as a resource for the development of global, international, and intercultural knowledge and skills, and encourage the enhancement of our internationalized campus and engagement in the world.” Membership in the Institute includes anyone involved in internationalization efforts at SUNY Oswego, many of whom are currently serving on related advisory committees. The Board is made up of representatives of those groups. Membership on the Institute board this year included OIEP Director and current Chair, Joshua McKeown; Hart Hall Director, Greg Parsons; Internationalizing the Curriculum Committee Chair, Stephen Rosow; Visiting Scholars Committee Chair, John MacDonald; Education Abroad Committee Chair, Barbara Garii; International Students Committee Chair, Gurdeep Skolnik; Modern Languages and Literatures Dept. Chair, John Lalande; ORSP director (ex officio), Jack Gelfand. Others may be added as other areas of internationalization grow. Initial meetings this spring focused on laying the groundwork for future activities and creating a website.

Elsewhere on campus SOE has a Global and International Advisory Group as well as a Diversity Committee working with faculty and students on multicultural and global issues. The School of Business has a Multicultural and International Committee. The campus-wide Diversity Committee has undertake a variety of projects this year, including sponsoring a session in Quest, providing professional development from CELT, having an impact by participating in FOE and other committees, and helping with searches.

Learning Outcomes and Curriculum Development

Our specific goal this year related to world awareness was that departments and programs would articulate their learning outcomes related to multicultural and global awareness. Although we do not have a complete list of those learning outcomes, we continued to make progress in developing new courses that would expand the awareness of students regarding multicultural and global issues. “Comparative and International Education: Non-western Perspectives” (B. Garii) is a new education course fulfilling general education outcomes in non-western civilization. With grant support MLL developed new courses in Brazilian culture and Portuguese Language (T. Lewis). Music created a new course “African Music in the Americas.”

---

7 0910 annual goal: All departments and programs will articulate specific learning outcomes designed to help their students develop both multicultural and global knowledge, skills, and understanding for success in their lives and careers.
New quarter courses were developed on “Schools and Urban Society in a Global Context,” (R.D. Davis, V. MacEntee), “Jewish Culture and the Holocaust” (J. Hester, G. Parsons) and “Marine Wildlife Ecology in Honduras” (L. Balko). Other new courses were offered in support of the ARTSwego project on diaspora, including an Intellectual Issues course (S. Rosow and N. Jaywardane) and a History course entitled “Art, Ideas and Exile: A Comparative Perspective on Exile and Diaspora in the 20th Century” (C. Chris Mack). Curriculum Innovation Grants this summer are supporting the development of two additional courses with learning outcomes in multicultural and global issues with the following project titles: “Kindling Curiosity and Cultivating Critical Thinking: Preparing Psychology Students for Their Major and the World” (P. Brand) and “Immigrant Literature: the Politics of Belonging” for Activists and Scholars Program (M. Curtin). Finally, we note that many departments have regular course offerings that include global aspects.

Co-curricular programs

Faculty, staff, and students in departments and programs across campus participated actively in programs that helped advance multicultural and global learning. ARTSwego sponsored a series of programs and classes with visiting artists on Arts, Identity, and the Diaspora. ARTSwego visiting artists Li-Young Lee, Katja Esson, Frank London and Alex Escalante also participated in interviews with Dr. Jessica Hester-- forming the first four weeks of the Diaspora: Global to Local radio series. The series was organized by the School of Communication, Media and the Arts and WRVO Public Radio with support from the New York State Council on the Humanities.

Many other groups contributed to this focus in co-curricular programming. Modern Languages and Literature is very involved. Through the efforts of Professors Whittingham and Loayza, the Spanish Program collaborated with ARTSwego to bring a troupe of dancers to campus and to integrate their work into Spanish classes. Members of the German faculty worked to bring Andrea Huber’s “A Little Weill” concerts to Oswego. Professors Cortez and Freire brought the Latin American dance troupe Tami Tango to campus, where it performed and its members attended Spanish classes to talk with students. In conjunction with the SUNY-Oswego’s Women’s Center, the Spanish program under the leadership of B. Salcedo-Strumpf presented the play Women of Sand, which calls attention to the unfortunate fate of women crossing the border from Mexico into the US. The Music department created a new ensemble The SUNY Latin Jazz Ensemble to provide global, multicultural and diversity emphasis to its offerings.

Students and faculty members are encouraged to participate in activities to expand their understanding. Business students attended a Syracuse conference on “Entrepreneurship in Africa” and others organized an awareness event “Stand-up for Poverty.” Tyler Art Gallery exhibits this year included the wonderful narrative paintings from West Bengal collected by G. Forbes and curated by L. Langlois. A photography exhibit at the Metro Center featured ways of
documenting travel experiences in different ways by J. Winslow, M. Ostrow, and R. Metzger. Penfield Library hosted a fall exhibit of global portraits and prepared previous exhibit posters on Hiroshima for sharing with other venues in NY. Hart Hall hosted a successful World Awareness Conference and sponsored Oswego Has Hart, which collected clothing for Iraqi refugees in Syria and books and supplies for students in Benin. Activities like these expand our understanding of the world.

**Study and Research Abroad**

Opportunities for meaningful study and research abroad abound on the campus and resulted in many students from our campus participating in some form of study or research abroad.

The economy still seems to be having an impact on students choosing to go abroad, though the number is 27 more students this year than last. The number, calculated as a percentage in relation to the number of our graduates each year, yields about 20% of graduates with international experience from SUNY Oswego. This compares very favorably with the 9.4% national average. While 98 students participated in exchange programs, 186 chose to participate in quarter or other short-term courses. Some of these were mentioned earlier in the report. This year we added new Global Cities courses in Beijing and Buenos Aires to others offered in London, Madrid, Paris, Rome, Tokyo, and Dublin. Students in Anthropology chose “Archaeological Survey Bahamas,” mapping archaeological sites of the Loyalist period on the island of Warderwick Wells. Students in Chemistry and other fields participated in GLS 316: “Fermentation Science,” learning the science of fermentation in the making of scotch and other liquors.

Other new opportunities are being developed. Faculty members from the Psychology Department (R. Brooks and K. Wolford) and the Counseling and Psychological Services Department (G. Porter and B. Streets) are developing a semester course entitled “Ethnocultural
Aspects of Trauma,” dealing with the effects and treatments for long term trauma, as well as providing an appropriate context for the relief efforts in Haiti. Students who take the course this fall will have the option of going to Haiti and working with the Haitian relief effort. On another project, several faculty members are working with Lorrie Clemo and Shashi Kanbur to establish the Global Laboratory opportunities for student research on continents around the world.

Students are finding new opportunities everywhere. For example, a Technology education/management student studies in Australia and another with a University of Virginia Semester at Sea (sustainability). SOE is working with OIEP to identify student teaching placements abroad in Puerto Rico and Brazil. There is a new semester-long exchange program in Florence, Italy and new exchange agreements were signed with universities in Korea, Spain, and Turkey. The Study Abroad Fair, International Day, and other activities make our students and faculty aware of many opportunities to explore and learn about the world.

Faculty members continue to increase their own understanding of global perspectives. Twenty faculty members received travel grants from OIEP this spring for research or scholarly presentations abroad to countries including Brazil, Kenya, Austria, South Africa, Congo, Singapore and South Korea, France, Canada, India, Germany, Bahamas, Turkey, India, Nigeria, Ireland, and Hungary. In addition, five professors visited Turkey last August. J. Narayan accepted an invitation from the government of Guyana to provide a 3-day workshop at the University of Guyana for high school teachers and to Turkey to work with teachers on the use of technology in courses teaching quantitative methods.

International Students and Scholars

This year saw an increase in both international students and international scholars on our campus. We hosted six international scholars this past year: three in business, one in history, one in C&I, and one in English. These visitors choose SUNY Oswego because of connections with faculty members and/or with previous scholars. The scholars join activities on campus, like World Community gatherings, and sometimes teach courses or provide guest lectures. In addition, OIEP hosted delegation visits from Zhejiang Sci-Tech University and the University of Nigeria as well as visits from universities in Australia and Mexico for discussing ways to further collaboration. The School of Education Benin project hosted 12 school inspectors and officials during summer 2009 Project Smart.

Gurdeep Skolnik, who works with international students, actively expanded support services for them this year. She provided a more thorough orientation to campus and sponsored new welcome and departure gatherings. She also oversaw the Summer Intensive English Program that brought 30 students from Puerto Rico and China to campus. We expect an increase in international students this fall; the number below for Fall 2010 is projected.
We continued recruitment efforts begun last year with trips by OIEP staff to India, China, Vietnam, Thailand, Japan, and Puerto Rico. The office also hired an International Student Services Specialist to help with future recruitment, advisement, and service delivery as we welcome an increasing number of international students to the campus in the future. Ping (Peace) Li will administer the Summer Intensive English and English for Academic Purposes programs.

### Solutions

Many of our Civic Engagement efforts are directed towards finding solutions to the problems of our world.\(^8\) This year faculty and students made a positive impact on our region and our world by engagement with schools, local businesses and other organizations. They contributed to enhancing the quality of life in the region and to promoting sustainability on campus and in the community.

#### Improving Schools

We are contributing to improvement in the schools at all levels. The SOE Dean’s Office continues to provide direction and leadership for **Team Sheldon**, Oswego County’s P-20 Academic Consortium to improve student/candidate achievement. The overarching theme for their efforts remains the need to reduce the high school dropout rate in our county. SOE also partners with BOCES to offer **New Visions** programs in Education, Law, and Allied Health for high school students; participants take college courses and explore issues related to their field of interest. The **Superintendent Development Program** is working with its largest cohort ever. **Project SMART** faculty members have been working with their PDS urban schools to support a writing workshop model of instruction. The Technology department is working with New York

---

\(^8\) 09-10 annual goal: Individuals and groups will collaborate with others in Oswego and Central New York on projects to expand community sustainability efforts; to strengthen schools, organizations, and agencies; and to enhance the quality of life in our area.
State STEM Education Collaborative to host a **STEM Education Institute** at Oswego in August. An Entergy supported study group of 12 teachers and a SMART staff member are collaborating and developing inquiry-oriented curriculum.

**SUNY Oswego’s **Project BLEND**: Building Leadership Excellence for Needs-Based Districts involves eight TLQP/Wallace Scholars who were nominated by their high-need districts as individuals who have great potential to serve as “turn-around” building leaders in these challenging settings. Wallace Scholars are being given additional clinically rich experiences with BLEND mentors in the field, collaborative focus group dialogues with current leaders, and tailored professional development opportunities. SUNY Oswego also joined the **Partnership for Better Education** in Syracuse with the dean of SOE participating regularly in collaborative meetings with the district and other institutions of higher education. We also continue to participate in the **Greater Central New York Consortium of Education** with superintendents and representatives from other institutions of higher education.

Other units are also contributing to expanding educational opportunities in the region through **summer outreach and events during the year**. For example, the Accounting, Finance and Law Department is collaborating with the New York State CPA Society to host a three-day, residential summer program designed to introduce underserved high school students to the accounting profession. The School of Communication, Media, and the Arts is continuing the Summer School of the Arts program begun last summer and is hosting a new summer program in Theatre. The Art Department adopted Kingsford School in an Adopt-a-School Program. Music also regularly collaborates with the Oswego Youth Orchestra and sponsors the College-Community Orchestra. ARTSwego programs offered a variety of in-school or campus-based programs for area students, including Boston brass performances at five high schools in the region last year. The Theatre Department faculty helped with productions at Oswego and at Mexico High Schools.

**Other programs have also been created** for students in the region. The Meteorology Club ran their first annual “WeatherFest” for local children. Professors Nanthakumar (Math), Ilie (Physics) and Kanbur (Physics) held the first regional High School Science/Math Quiz. The goal was to stimulate interest in STEM areas and to enhance future recruitment of science and mathematics students. Martha Bruch helped the Chemistry Club organize a “Chemistry Day for Children of Employees at SUNY Oswego.” Professor Roby developed a new planetarium program for the final monthly show in May, 2010 titled “A Half Century of Excellence” including examples of the best planetarium demonstrations done over the past 48 years. OLS staff made a number of presentations at schools and other events on educational opportunities and EOP and Penfield Library provided instruction programs for local high schools.

On the **international stage**, two quarter courses contribute to improving schools. The Benin/Paris course involves studying and assisting with educational reform in West Africa; this year the group brought 1500 scientific calculators, in addition to school supplies, to contribute to
scientific literacy efforts. A new quarter course in India contributes to meeting the challenges of urban and special needs education; this group also brought supplies to the schools and agencies visited and shared their ideas about special needs education.

**Expanding Capabilities of Businesses and Organizations**

There are many ways in which we contribute to economic understanding in the region. The Accounting, Finance & Law Department continued hosting the Volunteer Income Tax Assistance (VITA) Program, this year at the Oswego City Library, Hamilton Homes, and Oswego County Department of Social Services in Fulton. The project netted clients $400,000 in Earned Income Credit. Seven MoneySmart workshops, a partnership of Pathfinder Bank and SUNY Oswego, were offered at the Public Library in the Fall. Graphic design students are working through internships and volunteer opportunities with many nonprofit groups to enhance their marketing and outreach materials.

**Extended Learning** provides and/or hosts many programs for the region that contribute to economic development. In partnership with Oswego County Social Services, EL provides organizational and professional development training at Phoenix. They also provide the American Management Association Certificate Program and often are the location for OBCR’s Micro Enterprise Program. They also host a variety of meetings and events, such as the Women’s Network for Entrepreneurial Training, Bridges Out of Poverty workshops, judges professional development training, AP testing, and so forth. At the Metro Center, EL has also hosted a variety of groups, such as Junior Achievement, Junior League, GCNY Education Consortium, WRVO’s community forums, Onondaga County Bar association, and many others.

**Enhancing the Quality of Life**

ARTSwego as well as the departments of Theatre, Music and Art contribute extensively to the quality of cultural life in the community and region. Each is involved in the schools and in multiple performances throughout the year that are open to the public, including projects with Boston Brass in six area high schools and Flamenco Vivo Carlota Santana with schools in 3 counties. Ensembles and the Oswego Jazz Project perform in many different venues. A relatively new activity is “Art on the Wall,” now in its second year; the Art Department invited 4 regional artists to display their work in the Oswego State Downtown exhibition space.

Reaching out to the elderly is one area of importance to our region. Minjung Seo (HPW) and her students delivered a senior exercise program at Bishop’s Commons and Pontiac Nursing Home. Brad Korbesmeyer (Eng. & CW) and three students ran creative writing workshops and created a volume of poetry and prose written by residents of Springside at Seneca Hill. Robert Card (Phil) is a member of the ethics committee at the Manor at Seneca Hill nursing home, where his activities include consulting with the staff about the ethical aspects of issues affecting the quality of life of residents at the Manor.
On the international stage, a quarter course in India brought five students to study and seek solutions to the problem of human trafficking and modern day slavery. The departments of Counseling and Psychological Services and of Psychology, in collaboration with OIEP and others is developing a semester course with January travel to Haiti to study and provide support for trauma care in that country.

Environmental Sustainability

Since President Stanley signed the President’s Climate Commitment, faculty and staff have been working on increasing learning opportunities related to energy and sustainability for students. This year faculty members came together to develop a template for a minor in sustainability. These included participants from the following programs: Anthropology, Biology, Chemistry, English, Geology, Economics, Political Science, Technology, and Psychology. This year a new general education course was offered in geology by David Valentino and a new, interdisciplinary course from Economics and Political Science was offered by Lisa Glidden and Glen Graham. These courses have been linked for this coming fall with two sections of ENG 102 that will focus on writing about sustainability issues. Another course was created to meet the Intellectual Issues category of general education, team-taught by Bob Ballentine (ES) and Lisa Glidden (PS). A variety of other courses have been created around sustainability issues. In addition, the Office of Experience Based Education has developed a number of internships in sustainability. Participation in one of these internships or a relevant research project with a faculty member could become a requirement of the minor under discussion. At the graduate level, an elective on sustainability for the MBA was offered at the Metro Center last fall.

Other activities have educated the campus and community about sustainability. Many of our faculty members were involved in the development of the Sustainability Fair held in conjunction with Quest. The Energy Institute in the summer offered by Alok Kumar (Physics) and Tom Kubicki (Tech) for teachers provides professional development for strengthening understanding of energy and sustainability. Students from Technology worked on the campus composting project, including a pilot program for Mackin Dining Hall on tray-less dining and composting. An educational outreach program centered on sustainability and wetland ecosystems was created by Professors Back, Hellquist, Hernandez, and Rosenbaum to raise the awareness of our students and local citizens regarding the importance of wetlands in our region and different approaches to mitigating their loss. Barb Shafer (Library) offered a session at the Spring Breakout entitled “‘Greening’ Your Literature Research: Tips and Tricks.” Penfield Library has greatly increased the number of titles related to sustainability and the environment and this year hosed a spring exhibit entitled “Art Students Interpret Environmental Issues.”

One-time projects are also important contributions to the community. Several members of the Biological Sciences Department (Back, Hellquist, Hernandez, Mohamed, Rosenbaum, and Sime) worked with representatives from the US Fish and Wildlife Service and the New York
Department of Environmental Conservation outlining the removal of the dam at Fallbrook and the restoration of Rice Creek. Professor Rosenbaum conducted a training session for the US Fish and Wildlife Service and the US Army Corps of Engineers on identification of Bog Turtle habitat in Central New York.

On the international stage, two quarter courses this year dealt with sustainability issues. Liz Balko (Bio Sci) brought eleven students to Honduras to study tropical marine ecology. Cleane Medeiros took seven students to work on biological research and conservation in the Pantanal in Brazil.

Conclusion

This year again marks a year of progress on the campus strategic plan, “Engaging Challenge.” There were many successes and places where we could improve, but the momentum is forward into a great future for SUNY Oswego. For this, we acknowledge the outstanding work of faculty members and staff. Thank you to all.

SCM 7-10
APPENDICES TO ANNUAL REPORT, 2009-10

APPENDIX A: STUDENTS’ OFF-CAMPUS PRESENTATIONS, PUBLICATIONS, EXHIBITIONS 31

APPENDIX B: STUDENTS’ HONORS AND AWARDS FROM OFF-CAMPUS GROUPS 35

APPENDIX A: STUDENTS’ OFF-CAMPUS PRESENTATIONS, PUBLICATIONS, EXHIBITIONS

APPENDIX B: STUDENTS’ HONORS AND AWARDS FROM OFF-CAMPUS GROUPS

Abrey, Jeffrey, Bouwens, Kenny, Taffner, Kristopher (SOE), First Place Award, Technology Education Collegiate Association National Conference

Adeyemi, Akeem L., Higham, Dan, Proietti, John, Collegiality Award, SHRM Regional NE competition.

Allenbrandt, A. (SOE), Father Hall Memorial Scholarship, Newman Center

Asermily, Rachael, Cronin, Sarah, Monnin, Timothy, Sullivan, Kevin, advanced to national SIFE 2010 Competition.

Barden, Camden (SOE), Intensive Teacher Institute in Bilingual Education Scholarship

Bouwens, Kenny (SOE), First place award, Technology Education Collegiate Association National Conference

Calak, Katie (SCMA), Festa Fellowship, Delavan Art Gallery

Edwards, Laurie, Petrone, Mike, Pohlman, Chris, Roman, Kelsey and Paul Rotstein (SOE), Second place award, Technology Education Collegiate Association National Conference

Frye, E. (SOE), NYS Association of Foreign Language Teachers, Undergraduate Scholarship

Chevalier, Hannah (SOE), Intensive Teacher Institute in Bilingual Education Scholarship

Cohen, Dana (SOE), Intensive Teacher Institute in Bilingual Education Scholarship

Daniels, Katie (SOE), Intensive Teacher Institute in Bilingual Education Scholarship

Guilfoyle, Jacly (SOE), Intensive Teacher Institute in Bilingual Education Scholarship

Hofbauer, Kathryn (SOE), Undergraduate Academic Achievement Award, NYSSCPA Syracuse Chapter Award

Husung, Lisa (SOE), Intensive Teacher Institute in Bilingual Education Scholarship

Johnson, Danielle (SOE), Undergraduate Career Preparation Award, NYSSCPA Syracuse Chapter Award

Kaczorowski, Tess (SCMA), Dramaturgy 2nd Place, KCACTF Regional Festival

Lanigan, Tim (SCMA), Selected to study abroad in Vienna this summer as part of a study/performance program in music/German
Manning, J. (SOE), Outstanding Volunteer at Headstart, Bridgeton, NY

McIntyre, Breanna (SOE), Intensive Teacher Institute in Bilingual Education Scholarship

McKinney, Lacey (SCMA), SUNY Chancellor Award

McKinney, Lacey (SCMA), Festa Fellowship, Delavan Art Gallery

Montanaro, Louis (SOE), Intensive Teacher Institute in Bilingual Education Scholarship

Murphy, Laura Bea (SOE), Graduate Academic Achievement award, NYSSCPA Syracuse Chapter Award

Priedeman, Christopher (SOE), Knowles Science Teaching Fellowship

Romano, Paul (SOE), Intensive Teacher Institute in Bilingual Education Scholarship

Rotstein, Paul (SOE), Donald Maley Spirit of Excellence Award, International Technology Education Association Conference

Ryzewski, K. S. (SOE), NYS Association of Foreign Language Teachers, Graduate Scholarship.

Schurr, Melissa (SOE), Intensive Teacher Institute in Bilingual Education Scholarship

Shelton, Nicholas (CLAS), Audience Choice Award, SUNY-Wide Film Festival

Shlotzhauer, Steve (SOE), Graduate Career Preparation Award, NYSSCPA Syracuse Chapter Award

Streib, D. (SOE), Knowles Science Teaching Fellowship

Tullo, Kerri (SOE), Recipient of Stan Levinson Scholarship

Tyler, Havilah (SOE), Intensive Teacher Institute in Bilingual Education Scholarship

Walsh, Kira (SOE), Intensive Teacher Institute in Bilingual Education Scholarship

Whelan, Sean (SCMA), PR Week Student of the Year, 2010

Wood, Hillary (SOE), National Business Education Award of Merit

Zito, A. (SOE), Volunteer Award, Mohawk Valley Community College
APPENDIX C: HONORS, 2009-2010
(Reported in On-Line Reports as of May 25, 2010)

Avrakotos, Mary. Artswego
Adventurous Programming, Chamber Music America, January 2010.

Bacher, Leigh. Psychology
Psychology Dept Service Award, Psychology Department, April 2010.

Belt, Judith. Technology Education
College Technology Teacher Award, New York State Technology Education Association, April 2010.

Brown, Laura. Psychology
Nomination for President’s Award for Teaching Excellence, SUNY Oswego, March 2010.

Bruch, Martha. Chemistry
COLT Certificate of Teaching Excellence, Oswego State University, April 2010.

Burch, Rebecca. Psychology
Martin Luther King Award for Community Service, SUNY Oswego/Alpha Phi Alpha, February 2010.
Research Poster Award, Northeastern Evolutionary Psychology Society, July 2009.

Clabough, Cynthia. Art
President’s Award for Excellence in Teaching, SUNY Oswego, April 2010.

Curtin, Maureen. English And Creative Writing
Nominated to 2010 NYSUUT Leadership Institute at National Labor College, United University Professions, December 2009.

Damkaci, Fehmi. Chemistry
Best presentation honor, NETA at Harvard University meeting, April 2010.

Djukic-Cocks, Ana. Modern Languages And Literatures
NYSAFLT Goethe Institut Cultural Award for Travel in Summer 2010, New York State Assosiation of Foreign Language Teachers, October 2009.
Deutsche Theaterfest Second Prize College Division, Mount Holyoke College, MA, April 2010.

Fiorini, Jody. Counseling And Psychological Services
President’s Award for Excellence in Academic Advising, SUNY Oswego, August 2009.

Frederick, Alfred. Curriculum and Instruction
Distinguished Service Professor
Garii, Barbara. School Of Education, Dean’s Office
Provost’s Award for Scholarly and Creative Activity, Provost’s Office, SUNY-Oswego, April 2010.

Gilmour, Suzanne. Educational Administration
Nominated for AERA Social Justice Award, AERA, April 2010.
Bronze Award, SUNY Oswego ORSP, April 2010.

Jin, Bumsob. Communication Studies

Johnson, Adrianne. Counseling And Psychological Services
Great Teacher Award, SUNY Oswego, student awarded, April 2010.
Great Teacher Award, SUNY Oswego, department awarded, April 2010.

Ketcham, Gregory. Extended Learning
Professional Employee of the Year, SUNY Oswego, March 2010.

Kibbey, Jacqueelyn. Curriculum And Instruction
Apple Award, SUNY Oswego, May 2010.

Knowles, Helen. Political Science
Hayek Fund for Scholars Award, Institute for Humane Studies, April 2010.

Lalande, John. Modern Languages And Literatures
Anthony Papalia Award, New York State Association of Teachers of Foreign Languages, October 2009.

Langenfeld-Rial, Jonel. Theatre
Community Volunteer Award, H. Lee White Museum, November 2009.

Lewis, Tracy. Modern Languages And Literatures
Performance of opera “Cavallaria rusticana” in his honor, Asunción, Paraguay, Opera of the Universidad del Norte, Asunción, Paraguay, November 2009.
Guest at diplomatic dinner for Paraguayan ambassador to England, Asunción, Paraguay, November 2009.

Morrison, Ray. Penfield Library
Sylvia Chu Scholarship, SUNY Library Association, May 2010.
Pieraccini, Cristina. Communication Studies  
Certificate in Multimedia Journalism for Educators, Poynter Institute, February 2010.

Raymond, Casey. Chemistry  
Outstanding Advisor, Student Association, April 2010.

Ryniker, Margaret. Public Justice  
Alpha Sigma Lambda induction, Eta Gamma Chapter, SUNY Oswego, April 2010.

Schneider, Jeffery. Chemistry  
Inducted as Honorary Member of Eta Gamma Chapter of Alpha Sigma Lambda National Honors Fraternity for Adult Student Learners, SUNY Oswego Chapter, April 2010.

Spizman, Lawrence. Economics  
Past Presidents’ Award for Outstanding Services to the Association, National Association of Forensic Economics, January 2010.

Springston, Mark. Technology Education

APPENDIX G: PROFESSIONAL ACTIVITIES & SERVICE, 2009-2010
(Reported in On-Line Reports as of May 25, 2010)

Ann, Jean. Curriculum And Instruction
Popular Anthropology online magazine, Reviewer for Linguistics

Attia, Ashraf. Marketing
Arab Training and Consulting, throughout the Middle East.

Auler, Robert. Music
City College of New York, Master Class, November 2009.
Morningside College, Master Class, March 2010.
Oswego High School, Clinic, March 2010.
Fairport High School, Clinic, October 2009.
APW High School, Clinic, April 2010.
Fulton Home School Association, Clinic/Talk, April 2010.
Camillus Ridge Assisted Living, Infoformance, April 2010.
LaVeck Memorial Concert Series, Artistic Director, February 2010.
Liaison with LeMoyne College, Co-Facilitator.
Joyful Noise Concert Series Board Member, Board Member, Consultant.
Fulton Music Association, Artistic Director for Concert Series (five distinct events).

Avrakotos, Mary. Artswego
New York State DanceForce, Member By Invitation.
New York State Council on the Arts, Grant Review Panelist.
Pennsylvania Performing Arts on Tour, Grant Review Panelist.
Chamber Music America, Adventurous Programming Panelist.
New York Presenters, Regional Representative/Workshop Planning.
Chamber Music America, Panelist, Clasical Music Residency Program, April 2010.
Chamber Music America, Panelist, Jazz Resedency Program, April 2010.

Bacher, Leigh. Psychology
International Society for Developmental Psychobiology, Conference Coordinator.
International Society for Developmental Psychobiology, Editorial Board.

Ballentine, Robert. Earth Science
National Science Foundation, Review of a research proposal on lake-effect snow.
American Meteorological Society, Review of a manuscript of winter snowstorms.

Bartell, Amy. Art
University Hospital Organ Donation Program, Graphic Design Consultant, April 2010.
Menorah Park, DeWitt, Graphic Design Consultant, October 2009.
Illinois Holocaust Museum and Education Center, Graphic and Marketing Consultant, November 2009.
The Gifford Foundation, Syracuse, NY, Graphic Design and Marketing Consultant, November 2009.
Rome Arts Hall of Fame, Graphic Design and Marketing Consultant, March 2010.

**Baumgartner, Timothy.** Theatre
Mexico Schools, Performing Arts Building construction and equipment purchase, Consultant, May 2010.

**Bell, Mary.** Penfield Library
SUNY Council of Library Directors, Member.
SUNY Arts & Sciences Library Directors, Member.

**Belt, Judith.** Technology Education
SUNY Oswego Department of Technology Fall Conference, Chairperson for 70th conference entitled Technology Education: Connections to Science, Engineering, and Math.
NYS STEM Education Collaborative, Planning committee for first STEM Summer Institute - summer 2010.

**Bendinskas, Kestutis.** Chemistry
American Journal of Undergraduate Research, primary editor of Biochemistry section.
Journal of Chemical Education, reviewer.
“3 posters presented by my students,” Sigma Xi, Regional Conference. Sponsored 3 Students. Quest, Sponsored 4 students.

**Bero, Stephen.** Curriculum And Instruction
Round Table Conference Facilitator, Teaching for Social Justice, SUNY Oswego, December 5, 2009.

**Beyerbach, Barbara.** Curriculum And Instruction
Teachers College Record, reviewer

**Braun, Timothy.** Biological Sciences
Syracuse Research Corporation, Production and purification of milligram quantities of a 126 base pair DNA segment, September 2009.

**Brooks, Roger.** Psychology
Lapaz Mental Health, Compassion fatigue, January 2010.

**Brown, Laura.** Psychology
Oswego County Even Start, Internship Coordination, December 2009.
Oswego County Even Start, Program Implementation, January 2010.

**Bruch, Martha.** Chemistry  
National Science Foundation, review of grant proposals.  
American Chemical Society, review of manuscripts.  
QUEST, session chair, April 21, 2010.  
Lonza, NMR Analysis, March 2010.  
Lonza, NMR Analysis, May 2010.

**Burch, Rebecca.** Psychology  
Northeastern Evolutionary Psychology Society, Conference Organizer and Host.  
Northeastern Evolutionary Psychology Society, Member at Large.  
Northeastern Evolutionary Psychology Society, Undergraduate Research Committee.  
Evolutionary Psychology, Manuscript Review.  
Frontiers in Neuroscience, Manuscript Review.

Frontiers in Evolutionary Neuroscience, Manuscript Review.  
Human Nature, Manuscript Review.

**Burrell, Marcia.** Curriculum And Instruction  
National Evaluation Systems (NES), NYSTCE (New York State Teacher Certification Examination), bias review committee, October 2009.

**Camp, Susan.** Vocational Teacher Preparation  
Journal of Agricultural Education, Reviewer.  
AAAE, Member Services Committee from NC region.  
Fulbright, Host a Fulbright Scholar from Brisbane Queensland Australia.

**Card, Robert.** Philosophy  
University of Rochester Medical Center, Adjunct Associate Professor of Medical Humanities, July 1, 2009-June 30, 2010.  
Philosophy Department, Old Domirino University, Medical Ethics/Ethics Candidate Review, External Tenure Reviewer, January 2010.

**Clabough, Cynthia.** Art  
State University of New York, College at Old Westbury, Reviewer, BFA Program Proposal, April 2010.

**Clendinning, B David.** Penfield Library  
American Library Association, LAMA-OD Listowner.

**Cooper, Karol.** English And Creative Writing  
Cox, Pamela. Human Resource Management

Curry, Deborah. Penfield Library
Comprehensive Colleges Coordinated Collection Development (C4D), Conference Planning Committee.
Comprehensive Colleges Coordinated Collection Development (C4D), Member.
EBSCO Netlibrary Advisory Council, Member.

Cuthill, Ian. Marketing
Management, Cuthill Research Services, Inc., Manlius, NY.
Management, TelTec/Intota Expert Network, Minneapolis, MN.

Dong, June. Operations Management
Transportation Research E, Reviewer.
UMASS Amherst, Ph.D Dissertation Committee Member.

Damkaci, Fehmi. Chemistry
Sigma Xi Oswego Chapter, Treasurer.
Syracuse Academy of Science Charter Public School, Board Chair.
Noartheast Turkish American Scholars (NETA-Scholars), Board member.
Graduate Program, SUNY-Oswego, Director.
North east American Chemical Society, Organizing Organic chemistry session for 2010 Regional Conference.
Sigma Xi High School Science Competetion, Designed the competetion and prepared the presentation of the competetion.
North East Turkish American Scholars (NETA-Scholars), Selecting and organizing the interdsciplinary lecture series at Syracuse University.
Journal of Organic and Biorganic Chemistry, reviewed 3 articles for the journal.
Chemical Communications, reviewed 1 article for the journal.

Davis, R Deborah. Curriculum And Instruction

Delancey, Craig. Philosophy
Philosophical Psychology, Journal referee.
British Journal of the Philosophy of Science, Journal referee.
Syracuse University, outside Committee member for Ph.D. defense

**Delaney, Timothy.** Sociology
New York State Sociological Association (NYSSA), Treasurer, Board Member.
NYSSA, Vice-President.
NYSSA, Site Location Committee.
NYSSA, Session Chair and Organizer.
International Journal of the Humanities, Associate Editor.

**Diddi, Arvind.** Communication Studies

**Dighe, Ranjit.** Economics
Economic and Business Historical Society, Trustee.
Essays in Economic and Business History, Refereed article submission.
WRVO-FM, In-studio guest for coverage of governor’s State of the State Address, January 2010.

**Djukic-Cocks, Ana.** Modern Languages And Literatures
Central New York Chapter of the American Association of Teachers of German, Treasurer.

**Dong, Qiong June.** Marketing And Management
UMASS Amherst, Ph.D. Dissertation Committee member.
Supernetworks, Shanghai, China, July 8, 2009.

**Donnelly, Margaret.** Curriculum And Instruction
Delta Kappa Gamma Society Alpha Iota Chapter, Member, Convention and Conference Committee, Fundraising Committee.

**Dykas, Matthew.** Psychology
Catholic Charities CAPA Program, Spokane, WA, Directing Attachment-Based Assessment in At-Risk Infants, October 2009.

**Edwards, Ann.** Management
AXA Equitable (w/Metro Center), Syracuse, May 21, 2010–Present.
