All current students may participate in the Housing Selection Process starting in the spring semester. This online process allows students to reserve their residence for the upcoming academic year.

All current first year students are required to live on-campus for next year.

Participation in Housing Selection **guarantees** the student on-campus housing for the entire academic year **AND obligates** the student to live on-campus for the full academic year. Students who are not required to live on-campus should only participate in Housing Selection (Village Selection and Residence Hall Room Selection) if they are 100% sure they want to live on-campus for the entire upcoming academic year.
