

All In Living Learning Community

AGREEMENT

2023-2024 Academic Year

We acknowledge the need to provide a supportive and inclusive space for LGBTQIA+ students and their allies to call home. All In: An LGBTQIA+ and Allies living learning community was developed for first-year students interested in learning about LGBTQIA+ identities, history, culture, and social advocacy. All In emphasizes the intersectionality within everyone's identities and allows you to explore your personal identities in a caring environment. When you live here, you'll work alongside other like-minded students to build a community based on mutual respect, understanding, affirmation, and where identities of all kinds are celebrated. You also will be connected with numerous campus resources and organizations who are able to provide support and ensure your success as a SUNY Oswego student.

All activities and programs are designed to:

1. Build a caring and connected community.
2. Provide students with opportunities for learning and development related to their gender identity and expression.
3. Connect students with resources across campus that support student success and can respond to changing needs and concerns of LGBTQIA+ students and their allies.

LLC Goals:

As a result of participating, students will be able to:

1. Create a strong sense of community among peers, faculty, and staff based on mutual respect where all gender identities and expressions are included and affirmed.
2. Demonstrate knowledge of LGBTQIA+ history, identities, culture, and current events.
3. Identify co-curricular opportunities available at SUNY Oswego that can support student exploration and advocacy related to gender identity and expression.

As a participant in this LLC program, I agree to:

1. Attend LLC Orientation. We'd like you to begin to connect with students, faculty, and staff in this community even before the start of classes. **Participants will arrive on campus to move into their residence hall on Tuesday, August 22, 2023.** Please note this is one day earlier than first year students not participating in an LLC.
2. Participate! The programs are designed to be fun and beneficial! Students will engage in a minimum of 3 per semester.
3. Attend a Community Circle once per semester to discuss how things are progressing within the community.
4. Bring an open and supportive attitude, as we hope students will actively and positively engage with each other on issues of gender identity and expression.
5. Live in Waterbury Hall on the designated LLC floor - second floor.
