Additional information regarding NYS laws related to alcohol violations, refer to NYS Traffic and Vehicle Law and NYS Penal Law.

My Student Body

Since most students have social functions and enjoy the freedom of exercising personal choices, their schools are always looking for ways to enhance their comprehensive alcohol strategy and to prevent the irresponsible use of alcohol both on and off campus. Although alcohol does not present serious medical risks to most students, alcohol abuse and overuse is an issue that affects the entire campus community.

SURF and Oswego Police offer MyIdWeAreWe, which teaches online course about alcohol and drugs and social media awareness for freshman year students. Providing online education through a lifestyle interactive design, MyIdWeAreWe courses teach students about alcohol, drugs and other substance additions. The purpose of this course is to introduce students to knowledge, skills, and behaviors and provide information so that they make good decisions.

Educational Sanction for Alcohol and Other Drug Intervention Program

The goal of this program is to induce students to take responsibility for their behaviors and to learn from the consequences of their actions. SURF and police have used BASICS to design a program that is motivating individuals to choose a more healthful lifestyle.

BASICS: designed to assist students in maintaining or gaining drinking behavior in a judgment free environment. BASICS is an alcohol-only program, and is appropriate for anyone who is not currently seeking to change his or her drinking behavior.

Education, Counseling, Treatment and Rehabilitation Programs

Members of the campus community are encouraged to utilize the many campus and community resources available to them. Professional counseling on alcohol and drug information is offered. Academic counseling on alcohol and other drugs is offered in SUNY Oswego in addition to extracurricular programs designed to increase awareness and understanding of personal alcohol and other drug use choices and consequences. See the more for information.

Description of Health and Personal Risks

The abuse of alcohol and/or use of other drugs can lead to a variety of consequences including temporary or permanent physical or mental impairment, accidents, injury, illness, and death. Such abuse and abuse also goes hand in hand with costs that range from damage to property of others, and places all members of the campus community at risk. In addition, alcohol and other substances may be used in an attempt to alter one’s mood and/or to reduce symptoms of depression, stress, anxiety, fatigue, pain, and other negative feelings. Moreover, alcohol and/or illegal use of other drugs may lead to an increase in nonconsensual sex, increasing the risks for HIV/AIDS, other sexually transmitted diseases, and unintended pregnancy. These harms may be found in both the short and long term and may have long-term effects on the person and other people and places all members of the campus community at risk.

Statement in Support of a Drug-Free Campus

The State University of New York at Oswego recognizes that the abuse of alcohol and illegal possession or use of other drugs adversely affects the pursuit of its educational objectives. The College is committed to providing a safe and supportive educational environment for all members of the College community. The College also recognizes that substance abuse adversely affects the well-being of those who use alcohol and other drugs and the campus environment. It is the responsibility of the College to uphold the Federal Drug-Free Schools and Communities Act Amendments of 1989 and the Federal Drug-Free Workplace Act of 1988. Therefore, all members of our campus community must be aware of the legal issues, the unwise use, possession of alcohol, and/or the unlawful sale, possession, distribution or manufacture of LSD and other hallucinogenics, marijuana, hashish, cocaine, heroin, methamphetamine, hallucinogens, and other controlled substances under federal and/or state law. The College will provide the responsible use of alcohol and other drugs as well as the use of alcohol and other drugs is acknowledged

SUMMARY OF HEALTH AND PERSONAL RISKS

Drugs: Possible Effects of Use, Overdose and Withdrawal Symptoms

**Methadone**
- **Possible Effects of Use:** Nausea, anxiety, sleep disturbance, risk of overdose.
- **Withdrawal Symptoms:** Mood disorder, sleeping problems, low mood.

**Morphine**
- **Possible Effects of Use:** Drowsiness, depression, difficulty breathing.
- **Withdrawal Symptoms:** Spinal pain, muscle cramps, shock.

**Hydromorphone**
- **Possible Effects of Use:** Drowsiness, depression, slurred speech.
- **Withdrawal Symptoms:** Spinal pain, muscle cramps, shock.

**Fentanyl**
- **Possible Effects of Use:** Drowsiness, depression, difficulty breathing.
- **Withdrawal Symptoms:** Spinal pain, muscle cramps, shock.

**Methamphetamine (Speed, Crystal Mephedrone, Meth) Phedebline, Befelamine, Desoxyn, Dexadrine, Obetrol**
- **Possible Effects of Use:** Anxiety, paranoia, increased sensation, irritability, paranoia.
- **Withdrawal Symptoms:** Mood disorder, sleeping problems, low mood.

**Cocaine (Snort, Powder, Coke)**
- **Possible Effects of Use:** Sleeplessness, paranoia, restlessness, agitation.
- **Withdrawal Symptoms:** Mood disorder, sleeping problems, low mood.

**Heroin (H, Smack)**
- **Possible Effects of Use:** Drowsiness, depression, difficulty breathing.
- **Withdrawal Symptoms:** Spinal pain, muscle cramps, shock.

**Fentanyl Analogue**
- **Possible Effects of Use:** Drowsiness, depression, difficulty breathing.
- **Withdrawal Symptoms:** Spinal pain, muscle cramps, shock.

**PCP (Angelic Dust)**
- **Possible Effects of Use:** Dunce cap, smiley face, happy face.
- **Withdrawal Symptoms:** Mood disorder, sleeping problems, low mood.

**Mescaline and Peyote**
- **Possible Effects of Use:** Hallucinations, paranoia, delusions.
- **Withdrawal Symptoms:** Mood disorder, sleeping problems, low mood.

**Lysergic Acid Diethylamide (LSD)**
- **Possible Effects of Use:** Hallucinations, paranoia, delusions.
- **Withdrawal Symptoms:** Mood disorder, sleeping problems, low mood.

**MDMA, Ecstasy, X, TMA, DOM, DOB**
- **Possible Effects of Use:** Hallucinations, paranoia, delusions.
- **Withdrawal Symptoms:** Mood disorder, sleeping problems, low mood.

**Dextromethorphan**
- **Possible Effects of Use:** Hallucinations, paranoia, delusions.
- **Withdrawal Symptoms:** Mood disorder, sleeping problems, low mood.

**Ephedrine**
- **Possible Effects of Use:** Hallucinations, paranoia, delusions.
- **Withdrawal Symptoms:** Mood disorder, sleeping problems, low mood.

**Amphetamines**
- **Possible Effects of Use:** Hallucinations, paranoia, delusions.
- **Withdrawal Symptoms:** Mood disorder, sleeping problems, low mood.

**Pseudoephedrine**
- **Possible Effects of Use:** Hallucinations, paranoia, delusions.
- **Withdrawal Symptoms:** Mood disorder, sleeping problems, low mood.

**Mescaline and Peyote**
- **Possible Effects of Use:** Hallucinations, paranoia, delusions.
- **Withdrawal Symptoms:** Mood disorder, sleeping problems, low mood.

**Benzodiazepines**
- **Possible Effects of Use:** Hallucinations, paranoia, delusions.
- **Withdrawal Symptoms:** Mood disorder, sleeping problems, low mood.

**氯胺酮 (Ketamine) (Ket, Special K)**
- **Possible Effects of Use:** Hallucinations, paranoia, delusions.
- **Withdrawal Symptoms:** Mood disorder, sleeping problems, low mood.

**Methamphetamine**
- **Possible Effects of Use:** Hallucinations, paranoia, delusions.
- **Withdrawal Symptoms:** Mood disorder, sleeping problems, low mood.

**Cocaine**
- **Possible Effects of Use:** Hallucinations, paranoia, delusions.
- **Withdrawal Symptoms:** Mood disorder, sleeping problems, low mood.

**Methamphetamine**
- **Possible Effects of Use:** Hallucinations, paranoia, delusions.
- **Withdrawal Symptoms:** Mood disorder, sleeping problems, low mood.

**Fentanyl Analogue**
- **Possible Effects of Use:** Hallucinations, paranoia, delusions.
- **Withdrawal Symptoms:** Mood disorder, sleeping problems, low mood.

**Mescaline and Peyote**
- **Possible Effects of Use:** Hallucinations, paranoia, delusions.
- **Withdrawal Symptoms:** Mood disorder, sleeping problems, low mood.

**Lysergic Acid Diethylamide (LSD)**
- **Possible Effects of Use:** Hallucinations, paranoia, delusions.
- **Withdrawal Symptoms:** Mood disorder, sleeping problems, low mood.

**MDMA, Ecstasy, X, TMA, DOM, DOB**
- **Possible Effects of Use:** Hallucinations, paranoia, delusions.
- **Withdrawal Symptoms:** Mood disorder, sleeping problems, low mood.

**Dextromethorphan**
- **Possible Effects of Use:** Hallucinations, paranoia, delusions.
- **Withdrawal Symptoms:** Mood disorder, sleeping problems, low mood.

**Ephedrine**
- **Possible Effects of Use:** Hallucinations, paranoia, delusions.
- **Withdrawal Symptoms:** Mood disorder, sleeping problems, low mood.

**Amphetamines**
- **Possible Effects of Use:** Hallucinations, paranoia, delusions.
- **Withdrawal Symptoms:** Mood disorder, sleeping problems, low mood.

**Pseudoephedrine**
- **Possible Effects of Use:** Hallucinations, paranoia, delusions.
- **Withdrawal Symptoms:** Mood disorder, sleeping problems, low mood.

**Mescaline and Peyote**
- **Possible Effects of Use:** Hallucinations, paranoia, delusions.
- **Withdrawal Symptoms:** Mood disorder, sleeping problems, low mood.

**Possible Effects of Use, Overdose and Withdrawal Symptoms**

**Magic Mushrooms, Shrooms**
- Extreme grogginess, unconsciousness,
- Irritability, depression, disorientation.
- Hallucinations, convulsions, possible death.

**Other Stimulants**
- Ephedrine
- Methylphenidate
- Amphetamines
- Cocaine

**Other anabolic steroids**
- Other anabolic steroids
- Growth of facial hair, male pattern baldness, changes in voice, muscle mass, acne.

**Tetrahydrocannabinol**
- Drug Type: Trade or Other Names
- Marinol, C法sin, Dronabinol, Cytadren
- Withdrawal Symptoms: Insomnia, hallucinations, confusion, anorexia.

**Other Hallucinogens**
- Other Hallucinogens
- Other hallucinogens, depression, suicidal
tendency, agitated behavior without smell.

**Other Neuroleptics**
- Other Neuroleptics
- Hallucinations, confusion, disorientation, delusions.

**Other Antipsychotics**
- Other Antipsychotics
- Neuroleptics, disorientation, delusions, hallucinations.

**Other Atypical Antipsychotics**
- Other Atypical Antipsychotics
- Neuroleptics, disorientation, delusions, hallucinations.

**Other Stimulants**
- Codeine, Methylphenidate, Amphetamines, Cocaine

**Benzodiazepines**
- Drug Type: Trade or Other Names
- Ativan, Dalamane, Diazepam, Librium, Valium
- Withdrawal Symptoms: Coma, weak and rapid pulse, possible death.

**Amphetamine Analogue**
- Buprene, Methadone, Heroin, Mecadone, Pervigil
- Withdrawal Symptoms: Shaking, chills, cramps, convulsions, death.

**Other Stimulants**
- Amphetamines, Cocaine, Methamphetamine

**Withdrawal Symptoms**
- Effects of Overdose: Pupils, weak and rapid pulse, coma, possible death.

**Atropine**
- Drug Type: Trade or Other Names
- Atropine, belladonna, atropine sulfate.
- Withdrawal Symptoms: Watery eyes, runny nose, yawning, loss of appetite, panic, cramps, nausea, chills and sweating.

**Morphine**
- Drug Type: Trade or Other Names
- Hydromorphone, Meperidine,morphine, codeine.
- Withdrawal Symptoms: Headache, muscle pain, loss of identity, anxiety, vomiting, cramps, nausea.

**Methadone**
- Drug Type: Trade or Other Names
- Methadone, Noloxone, Naloxone.
- Withdrawal Symptoms: Skin rash, fever, headache, anxiety, vomiting, sweating, diarrhea.

**Phencyclidine Analogue**
- Drug Type: Trade or Other Names
- Phencyclidine Analogue
- Effects of Overdose: Psychosis, mental health problems, heat.

**PCP, Angel Dust, Hog**
- Drug Type: Trade or Other Names
- PCP, Angel Dust, Hog
- Effects of Overdose: Loss of coordination, slowed speech, paranoia.

**Nightclub Drugs**
- Drug Type: Trade or Other Names
- Nightclub Drugs
- Effects of Overdose: Sleep deprivation, altered perception of time and distance, sweating, elevated body temperature.

**Laetrile**
- Drug Type: Trade or Other Names
- Laetrile, ethyl laurate
- Effects of Overdose: Cancer, liver damage, stomach bleeding.

**Methadone**
- Drug Type: Trade or Other Names
- Methadone, LAAM
- Withdrawal Symptoms: Vomiting, sweating, diarrhea, fever, chills, shakiness.

**Methamphetamine**
- Drug Type: Trade or Other Names
- Methamphetamine, Methadone, Heroin, Mecadone, Pervigil
- Withdrawal Symptoms: Headache, muscle pain, loss of identity, anxiety, vomiting, cramps, nausea.

**Cocaine**
- Drug Type: Trade or Other Names
- Cocaine, Methamphetamine, Methadone, Heroin, Mecadone, Pervigil
- Withdrawal Symptoms: Headache, muscle pain, loss of identity, anxiety, vomiting, cramps, nausea.

**MDMA, Ecstasy, X, TMA, DOM, DOB**
- Drug Type: Trade or Other Names
- MDMA, Ecstasy, X, TMA, DOM, DOB
- Effects of Overdose: Loss of coordination, slowed speech, paranoia.

**LSD**
- Drug Type: Trade or Other Names
- LSD, Acid, Hash Oil
- Effects of Overdose: Loss of coordination, slowed speech, paranoia.

**MDMA, Ecstasy, X, TMA, DOM, DOB**
- Drug Type: Trade or Other Names
- MDMA, Ecstasy, X, TMA, DOM, DOB
- Effects of Overdose: Loss of coordination, slowed speech, paranoia.

**LSD**
- Drug Type: Trade or Other Names
- LSD, Acid, Hash Oil
- Effects of Overdose: Loss of coordination, slowed speech, paranoia.

**MDMA, Ecstasy, X, TMA, DOM, DOB**
- Drug Type: Trade or Other Names
- MDMA, Ecstasy, X, TMA, DOM, DOB
- Effects of Overdose: Loss of coordination, slowed speech, paranoia.

**LSD**
- Drug Type: Trade or Other Names
- LSD, Acid, Hash Oil
- Effects of Overdose: Loss of coordination, slowed speech, paranoia.

**MDMA, Ecstasy, X, TMA, DOM, DOB**
- Drug Type: Trade or Other Names
- MDMA, Ecstasy, X, TMA, DOM, DOB
- Effects of Overdose: Loss of coordination, slowed speech, paranoia.

**LSD**
- Drug Type: Trade or Other Names
- LSD, Acid, Hash Oil
- Effects of Overdose: Loss of coordination, slowed speech, paranoia.

**MDMA, Ecstasy, X, TMA, DOM, DOB**
- Drug Type: Trade or Other Names
- MDMA, Ecstasy, X, TMA, DOM, DOB
- Effects of Overdose: Loss of coordination, slowed speech, paranoia.

Regarding Alterations to Licenses and Other Documents
In accordance with the provisions of specific New York State Penal Laws and the Vehicle and Traffic Laws, it is unlawful to make alterations, including causing, changing, obliteration or other additions, deletions, or change to any license, certificate of registration, or license plate.

It is unlawful to possess, sell, or distribute license plates that have been altered or otherwise falsified, or to possess or otherwise use a license belonging to another, either to gain access to an establishment where alcohol is served or to display as identification when law enforcement officers or others.

Furthermore, it is unlawful to possess, copy, reproduce, duplicate or alter any computer-related material with the intent to benefit yourself or another person, including possession of software to possess, sell, or distribute falsified licenses or other documents.

Violation of these sections of law may constitute a felony offense under New York State Penal Law and in all instances, constitute criminal offenses.

Regarding Zero Tolerance
Persons under age 21 who are caught serving alcohol illegally at 0% BAC or more but not less than 0.01% BAC will have their licenses for at least 6 months and may have to pay $10,000 civil penalty and $100 suspension termination fee.

Persons with a second zero tolerance violation will lose their license for 1 year until age 21 and may have to pay $10,000 civil penalty and $100 license revocation fee.

Regarding Social Host Law
New York State imposes social host liability on any person who serves alcohol illegally.

This policy applies to all faculty, staff, students, student organizations and all groups on campus.

• in individual residence hall living quarters.
• at events approved by the College in licensed facilities, and
• off-campus groups.

New York State imposes social host liability on any person who serves alcohol illegally.

For more detailed information concerning NYS laws related to alcohol violations, refer to NYS Vehicle and Traffic Law and NYS Penal Law.

My Student Body
Some neat social issues and preventive efforts offer information and development and discourage alcohol and drug abuse among residence hall students.

SUNY Oswego is a public entity that engages in activities that vary in nature and extent, including, but not limited to, research, teaching, and community service. It is important to note that all students and employees are required to follow the University’s community standards and legal regulations.

Regarding the Use of Alcoholic Beverages
The use of alcoholic beverages is only permitted by persons of legal age on the Oswego State campus.

• at events approved by the College and licensed facilities.
• at residence hall events.

This policy applies to all faculty, staff, students, student organizations and all groups on campus.

SUNY Oswego is a public entity that engages in activities that vary in nature and extent, including, but not limited to, research, teaching, and community service.

Statement of Support in Favor of a Drug-Free Campus
The State University of New York at Oswego recognizes that the abuse of alcohol and the illegal possession and use of other drugs adversely affects the pursuit of its educational objectives. The College is committed to providing a safe and supportive educational environment for all students of the College community. The College recognizes that the illegal sale, purchase, manufacture and distribution of alcohol and other drugs may be of significant concern for those who live and work in the same environment. It is a fact demonstrated through both national and local data that the use of alcohol and other drugs inhibits personal and community safety and adversely affects the same environment.

In efforts to establish and maintain a drug-free campus, the College will provide responsible prevention and education programs and disseminate information about alcohol and other drug use. All students and employees will receive a statement of support this policy annually.

Any SUNY Oswego employee who is convicted of a criminal act related to alcohol or other drug abuse in the course of and as a direct result of conduct while on duty will lose their position.

Any employee found to be in violation of this policy will be subject to disciplinary sanctions up to and including expulsion from the College and/or termination of employment. Student groups or organizations found to have violated this policy will have their memberships revoked and be barred from participation in on-campus activities for the remainder of the College's term of office or for the remainder of the academic year. The College will provide responsible prevention and education programs and disseminate information about alcohol and other drug use.
