

BATTERY DISPOSAL

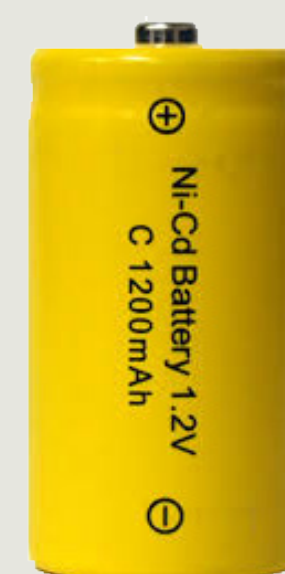

THE FOLLOWING SHOULD BE RECYCLED IN CAMPUS COLLECTION CONTAINERS:

Mercury/Silver Oxide, Lithium, Zinc-Air

(small, button/coin sized, AA, C, 9 volt, 6 volt, for computers, pagers, medical equipment, cameras)

Nickel-Cadmium

(AA, AAA, C, D, Power Packs, used in cell phones, camcorders, cordless tools, laptops)

Sealed Lead Acid

(D, Battery Packs, used in camcorders, emergency lighting, power backup)

Note that alkaline batteries in AA, AAA, C, D & 9 Volt forms may simply be discarded in the trash, as they are not hazardous.

Send batteries you are unsure about to the Environmental Health & Safety Office in Lee Hall 110 via Campus Mail.
