

**ONONDAGA COMMUNITY COLLEGE  
AND  
SUNY OSWEGO  
DUAL ADMISSION PROGRAM AGREEMENT**

This agreement establishes a Dual Admission Program between Onondaga Community College and SUNY Oswego. Students selected for matriculation in this program will, upon completion of a prescribed sequence of courses leading to an Associate degree from Onondaga Community College, continue their studies at SUNY Oswego with assurance that they may complete all requirements for a corresponding baccalaureate degree within four semesters. Generally, completion of Childhood or Adolescent Education Degrees will require additional hours. SUNY Oswego will provide a credit evaluation upon request.

**STUDENT SELECTION**

The Office of Admissions at Onondaga Community College will be responsible for the selection of candidates for admission to this dual admission program. In general, applicants will be expected to present strong records of academic achievement including four years of English, three years of social studies, and mathematics, and at least two year of study in science. In addition, Onondaga Community College will designate appropriate prerequisites for matriculation in any of the curricula included in this dual admission program.

Candidates selected for the program will receive, concurrently, a letter of admission from the Office of Admissions at Onondaga Community College and a letter of admission from the Office of Admissions at SUNY Oswego, establishing their eligibility to matriculate in corresponding baccalaureate programs upon completion of degree requirements at Onondaga Community College. In addition, students selected for the program will be advised in the letter of admissions of any special condition- such as minimum grade point averages- which may affect their eligibility to continue studies at SUNY Oswego. Decisions to allow the student to enroll at Oswego will reside with Oswego's Office of Admission according to their policies and standards.

**BACCALAUREATE DEGREE PROGRAMS**

The following academic majors at Oswego may be selected by students who enroll in this dual admission program.

<u>MAJOR</u>	<u>DEGREE</u>
Business Administration	BS
Public Justice	BA
Communication Studies	BA
Engineering Science	BS
Adolescence Education	BS
Childhood Education	BS
Computer Science	BA

**GPA REQUIREMENTS**

In no instance shall a student graduating with an Associate's degree from Onondaga Community College be expected to meet a higher GPA standard than a SUNY Oswego student entering junior status. A 2.3 GPA shall be required for all programs except Childhood Education and Adolescence Education which both require a minimum of 3.0 GPA.

### **STUDENT ACADEMIC ADVISEMENT**

Onondaga Community College staff will assume responsibility for advising students who enroll in the dual admission program. Program to program articulation equivalency tables will be used as the mechanism for communicating degree requirements to students. The equivalency tables will be reviewed periodically and appropriate revisions will be made as each institution adds, deletes, or changes course offerings.

Staff members from Onondaga Community College and the Office of Transfer Services at SUNY Oswego will be designated as contact persons and coordinators of this dual admission program agreement.

### **ARTICULATION PROCEDURES**

Participants in the dual admission program are not required to file an application for admissions to SUNY Oswego. However, in order for officials at SUNY Oswego to develop a candidate selection plan for each semester, students who anticipate enrolling at SUNY Oswego under the auspices of this agreement must file a Joint Admissions-Intent to Enroll with the Office of Admissions at Oswego prior to beginning their studies at the College. For the fall term, the Intent to Enroll must be filed by April 1; for the spring term, it must be filed by November 15. All students matriculated in the dual admission program at Onondaga Community College will be sent a copy of the Intent to Enroll form at the beginning of their final semester of study at OCC. SUNY Oswego reserves the right to review each candidate after the Intent to Enroll has been submitted.

With few exceptions students who wish to change their majors upon enrolling at SUNY Oswego will be permitted to do so with the expectation that they will be able to earn their baccalaureate degrees with the completion of four semesters. In some cases, such as majors in disciplines which are sequential and professional programs which are highly structures, achievement of a different baccalaureate degree at SUNY Oswego may require the completion of more than four semesters.

No tuition deposit will be required of students who plan to continue their studies at SUNY Oswego.

### **INFORMATION SHARING**

Onondaga Community College will provide SUNY Oswego with periodic reports so that officials at each college can monitor the flow of students through the program. Biographic data on each student will be provided to the admissions staff at SUNY Oswego so that literature and other relevant programmatic information can be sent to students during the time that they are pursuing their studies at Onondaga Community College.

In lieu of information which would be provided on an application for admission, OCC will provide any relevant data for the establishment of student records at SUNY Oswego, including a copy of each student's official transcripts from all previous colleges (regardless of whether credit has been awarded toward a degree program at OCC). Conversely, SUNY Oswego will provide reports on the academic programs of students who subsequently matriculate at the College. (All students matriculated in this degree program must sign a consent statement authorizing the release of all appropriate academic and biographic information.)

**PERIOD OF AGREEMENT**

This agreement will become effective on the date of signature and shall be reviewed annually, or when substantive changes are made in the curriculum on either campus. All students currently enrolled at Onondaga Community College and those admitted to begin their studies at OCC in Fall 2014 are eligible to be considered for this dual admission program.

*Signature indicates acceptance of Agreement*
